

# Aragosa 38

38'

**E**xcellence in Steel™ is the hallmark of the performance cruisers from Aragosa Yachts that provide fast, well-mannered, seaworthy vessels from 32 to 42 feet LOA, designed by Ted Brewer and Mark Ellis.

Using computer-assisted manufacturing for radiused bilge/hull construction together with the finest European craftsmanship, the high standard of hull finish is matched by the fine interior cabinetwork.

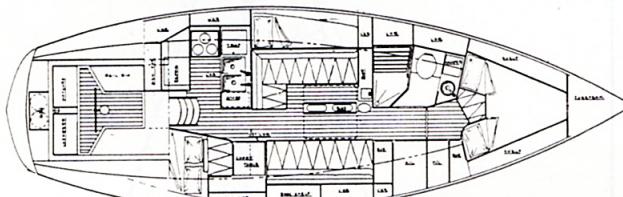

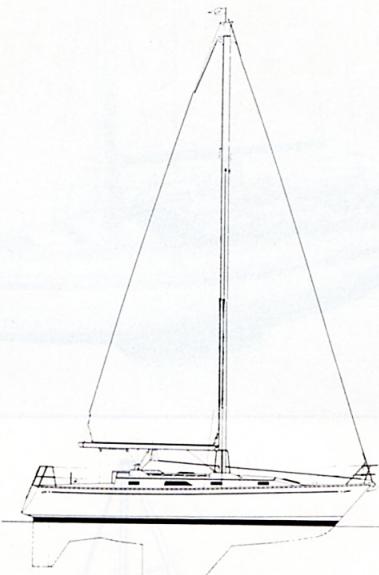

The Aragosa 38, designed by Ted Brewer, is a modern yacht in every respect of styling, rig, hull shape, and construction. The tall masthead rig spreads good sail area and, with her low-wetted surface, she will slide along easily in light airs. In strong breezes, her long waterline will provide good potential speed while her moderate displacement and powerful hull will

help her stand up to the weather.

The warm teak interior within an insulated hull provides a large galley, refrigeration, separate stall shower, instant hot water, two private cabins, and extensive storage for a comfortable lifestyle in the security of steel.
