LAY OUT TYPE-1

LAY OUT TYPE-2

The Blue Water-30 is a 1/2 tonner with a beautiful shape and reasonable accommodations designed with the I.O.R.-MARKIII as a base. It is a superior ship with an all-mighty character in any kind of weather. The deck fittings are simple, and the halyard and sheet control is smooth to handle with the sheet stopper with cum. The cabin is reasonable and easy to use, and, with a total of six berths, plenty of space has been utilized to insure even a big family a good time. The chart table, galley, oil skin locker and such are laid out using superior wood workmanship with harmony in mind, making one feel real warmth. The Blue Water-30 doesn't ask if you enjoy racing or cruising, only that you allow it to produce an abundant and full weekend for you.
