Construction $\frac{1}{4}$ " Marine Plywood
Total Sail Area 90 sq. ft.
 Main 62 sq. ft.
 Jib 28 sq. ft.
 Spinnaker Dimensions 13.75' x 13.75' x 8.2'
Weight Rigged 275 lbs. Min.
Spars Solid Spruce

The BLUE JAY is the biggest little One Design sloop of her size afloat today. While her rig is short, she is lively and fast and ghosts along easily in light air. Her roomy cockpit affords comfortable legroom, and her beam and shallow "V" bottom give her amazing stiffness. She is beautifully balanced, responsive, and light enough to load easily on a trailer, yet "big" and stable enough to make a fine family boat for youngsters and adults alike.

The BLUE JAY is available in kit and finished form from many builders, and plans can be ordered for \$15.00 per set from -
