**The Classic Corinthian!** Carl Alberg designed big-boat appearance and handling qualities into the Corinthian and came up with another winner. Now a recognized National Class, she is aesthetically pleasing with her graceful sheer lines . . . and provides fast, stable keel-boat performance to match. The young couple looking for *THE* family boat will find her ideal for daysailing or overnighting . . . with class racing potential thrown in. Quality control, which features tank testing, assures quality construction. Over 400 owners will attest to these features: reasonable price; high performance under sail; ease of handling; safety; seaworthiness; great rough weather boat; quality construction; plus proven reliability of designer and builder.

Comfort and convenience! Corinthian offers many "peace-of-mind" conveniences: positive flotation; large deep, dry cockpit; outboard motor well in cockpit (optional) to eliminate backstrain and inconvenience in placing motor; sliding hatch and cabin doors (optional) to provide "stand-up cabin space" and

"lock-up" storage for sails, gear, etc.; good headroom in cabin to provide "play-house" accommodations for children aboard; tabernacle mast-step to simplify rigging; plus ability to be trailered if desired. Check Standard Equipment for more. It all adds up to real value!

#### Corinthian-19 Standard Equipment

**Hull & Deck:** Quality fiberglass construction. Single unit molded fiberglass hull. Fiberglass deck and deckhouse . . . with non-skid surface. Foam flotation. Anti-fouling bottom paint.

**Cockpit:** Large, comfortable cockpit. Mahogany exterior trim. Teak cockpit grate. Optionals include: sliding companionway hatch; mahogany companionway doors; outboard motor well; canvas cockpit cover; and cockpit seat cushions.

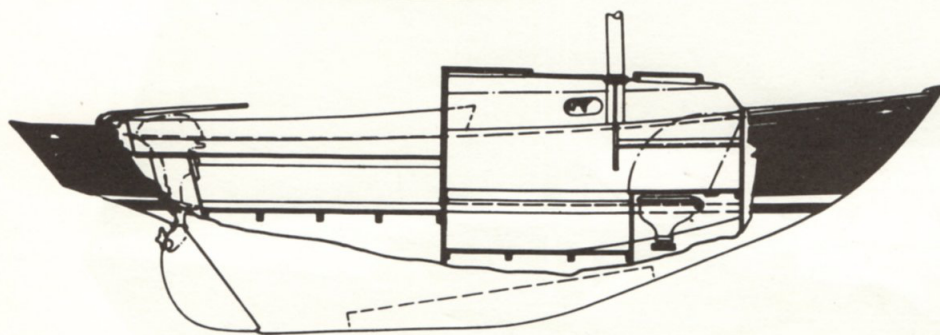

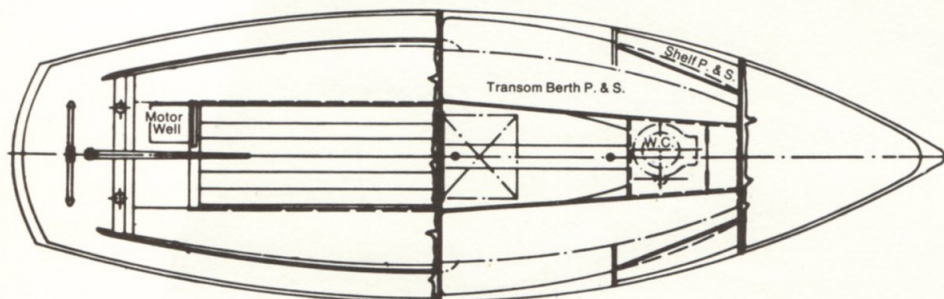

**Deck Hardware:** Bright deck hardware of high tensile alloys. Optionals include running lights.

**Interior:** Hinged mast step (with mast stepped on deck) provides unobstructed cabin room below and easy access to marine toilet (optional). Ample storage area under bunks keeps gear safe and dry. Optionals include marine toilet and berth cushions.

**Spars & Rigging:** Anodized aluminum spars (mast stepped on deck) with standard roller-reefing boom. Stainless steel standing rigging. Dacron running rigging. Simple rig . . . double main sheet with traveler make her a joy to sail. Genoa gear, spinnaker gear, and tabernacle mast step are available as optional equipment.
