

# ***Buccaneer 305***

***"A seagoing cruiser designed with ultimate comfort in mind."***

*Here's a boat that has proven itself an all-time favorite among sailors whose cruising plans may include weeks—or months on the water. It took the genius of Bill Garden to design so much comfort and convenience into a boat that performs so well; there's a forward stateroom with double berth and abundant storage, enclosed head with shower and a spacious salon with settees and a table that folds out to banquet proportions. Aft of the salon, there's a seagoing galley that rivals many homes.*

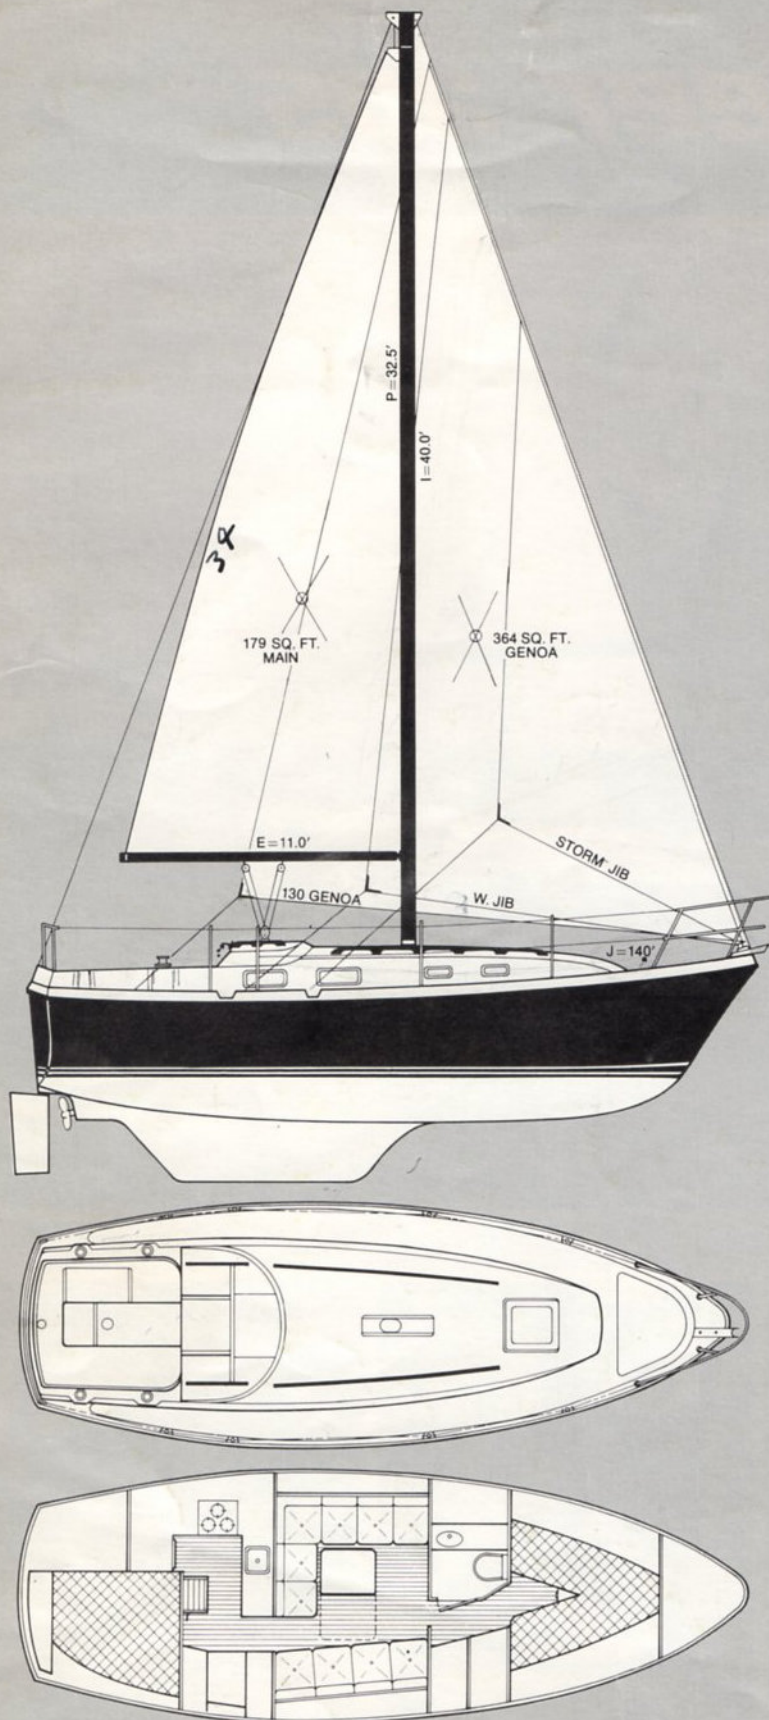

*Garden's modern hull and rig gives the 305 balanced, seakindly and surprisingly fast behavior. And with its standard Volvo diesel, it's ready to go.*
