

# Butterfly

12'

**S**ince 1960, when this 12-foot scow was introduced to the sailboat market, it has earned industry respect and reputation as one of the finest small sailboats for sale today. The Butterfly's versatility appeals to all members of the family—it is large enough to accommodate several people, fast enough for serious competition, and stable enough for kids to sail by themselves. The deep cockpit makes everyone happy, comfortable, and dry. The boat has been kept as simple as possible, with all the racing options available.

All hardware is backed by aluminum plates under the hand-laid fiberglass hull and deck. The finest sailcloth and hardware make the Butterfly a boat the most discriminating sailor will be proud to own. From the quality glass finish

to the hand-rubbed varnished woodwork, one can appreciate a boat built to last.
