

CT-43 Ron Holland

43'

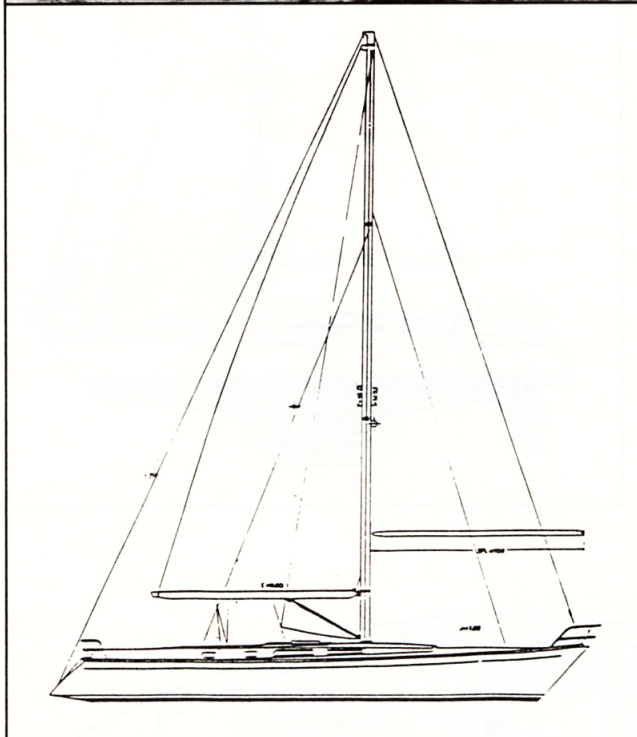

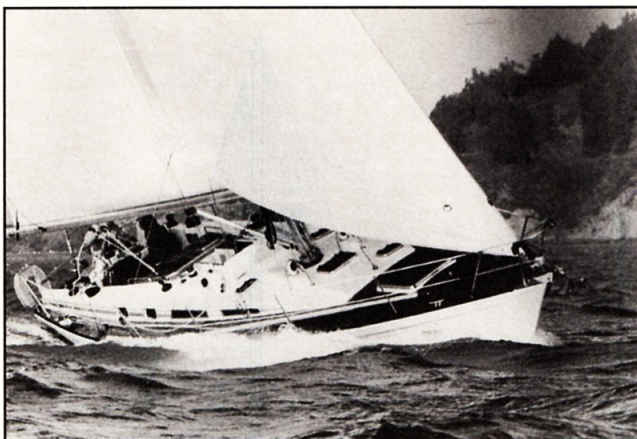

The Ron Holland 43 is the first of a new range of high-technology, fast cruising/racing yachts to have been built at Ta Chiao's boatyard in Taiwan.

The CT-43 is built to the same formula that has made the Scandinavian boatyards so successful in recent years: a fast, eye-catching hull by a top designer, a well laid-out, functional deck, the best deck gear, spars, and marine equipment available, very carefully thought-out accommodation detail, and excellent finish work throughout.

The result is a first-class yacht. Although the CT-43 has been available for only two years, it has quickly gained an enviable racing record. New equipment added to the standard boat makes it even easier to sail and adds more creature comforts below.

The standard CT-43 is a dry, quiet, and exceptionally sturdy cruising yacht with the expensive feel of hand-rubbed Burmese teak and elegantly contrasting formica and spruce. The interior includes bathtub/shower, built-in drink locker, impressive chart-table console, and lots of custom details not normally found on production yachts.

Several versions of the yacht are available, such as tricabin accommodations or Scheel keel.

Here is a yacht equal in construction, performance, and beauty to the finest Scandinavian yachts but with one important difference—price! For more information about the CT-43 and other yachts in the new cruiser/racer range, contact your local dealer.
