

# CAL 46 III

## A STANDARD BOAT READY FOR SAILS INCLUDES:

### HULL

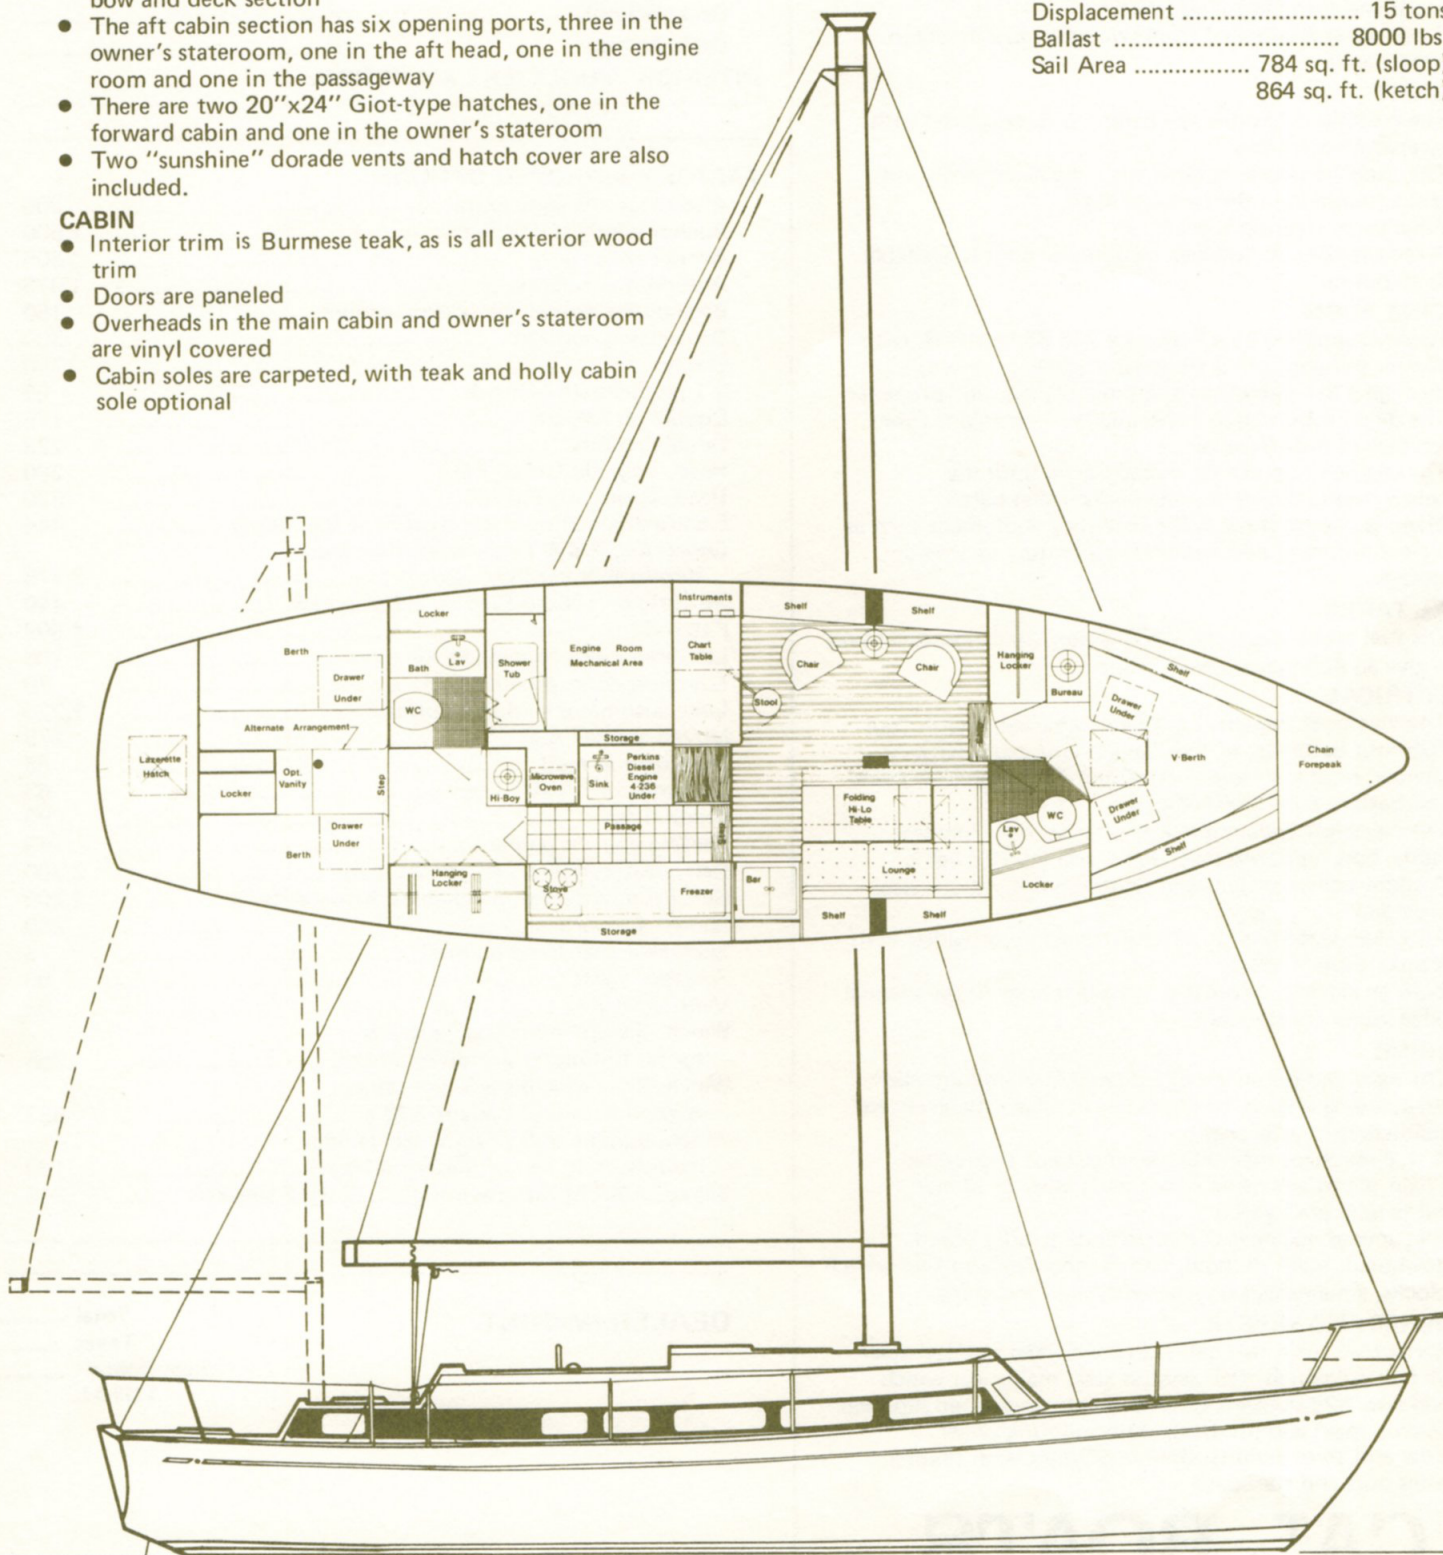

- Hull, deck and main hatch are of hand laid up molded fiberglass construction with additional stiffening in the bow and deck section
- The aft cabin section has six opening ports, three in the owner's stateroom, one in the aft head, one in the engine room and one in the passageway
- There are two 20"x24" Giot-type hatches, one in the forward cabin and one in the owner's stateroom
- Two "sunshine" dorade vents and hatch cover are also included.

### CABIN

- Interior trim is Burmese teak, as is all exterior wood trim
- Doors are paneled
- Overheads in the main cabin and owner's stateroom are vinyl covered
- Cabin soles are carpeted, with teak and holly cabin sole optional

## DIMENSIONS:

L.O.A.	45'6"
L.W.L.	37'6"
Beam	12'6"
Draft	5'0"
Displacement	15 tons
Ballast	8000 lbs.
Sail Area	784 sq. ft. (sloop) 864 sq. ft. (ketch)

## GALLEY

- The galley has a deep sink with freshwater mixer faucet and saltwater pump
- The icebox, 13.2 cu. ft., is top loading with blown foam insulation
- Optional refrigeration is available
- There is a stovewall sheathed with stainless (on alcohol stove only)
- Counter surfaces in galley and both heads are textured colored formica.

## HEAD

- Both heads are fully enclosed
- The owner's head is equipped with a shower standard
- Hot and cold water pressure system with outlets in both heads and the galley is supplied
- Fresh water is supplied from two approx. 250-gallon water tanks

## COCKPIT

- The midship cockpit is self-bailing and scuppered with wraparound seating
- The pedestal steerer is cable with engine controls and brake mounted in the pedestal head
- Emergency steering is provided
- A remote-control "dodger" automatic pilot is available as an option.

## ENGINE ROOM

- Power is supplied by a Perkins 4-236 85 hp diesel, with thermostat-controlled freshwater cooling, driving through a 3:1 reduction to a three-bladed, 26" propeller
- The diesel is housed in a spacious walk-in engine room for ease of maintenance
- The engine room can be reached from both the below-decks passage and the cockpit seat hatch
- There is plenty of room for accessory equipment such as air conditioning and auxiliary generators as well as storage.

## FUEL TANKS

- The fuel tanks' capacity — 150-gallon, 10-gauge steel tanks — give an 800-mile cruising range

## ELECTRICAL

- The electrical system is a 12-volt alternator with four 105-amp batteries, in two banks, automatic battery charger, master selector switch and circuit breaker panel and battery condition indicator
- The electrical system includes international running lights, bow light, masthead light, and interior lights
- A shore power system and lightning ground are also provided
- All below-waterline thru-hull fittings are provided with bronze shutoff valves
- Both an electric automatic and a diaphragm-type manual bilge pump are standard

## RIGGING

- The mast and boom are of lightweight aluminum alloy
- All standing rigging, turnbuckles, fittings, and cleats are stainless steel or bronze
- A 4:1 purchase mainsheet arrangement is supplied
- Chain plates are made of stainless steel or Monel
- All fittings are swaged
- All running rigging is complete and includes boom downhaul, main outhaul, two Genoa cars and two snatch blocks, a mainsheet traveler with slide and stops

## WINCHES AND SHEETS

- Barient #3 main reel halyard winch, #16 stainless steel jib halyard winch, #16 stainless steel mainsheet winch and two #28 stainless steel jib sheet winches are supplied
- Dacron main and jib sheets; four mooring cleats
- Bow and stern pulpits, double lifelines with lifeline gates port and starboard
