

# THE IS HERE

Jensen's new 24 foot quarter ton class boat from the drawing board of Wm. Lapworth, Naval Architect, is considered by many to be the hottest performer yet.

She is big for 24 feet with a true two cabin interior. Forward the cabin is much like her winning big sister the Cal 27 with a double berth, fully enclosed head and hanging locker. The main cabin is spacious with a forward two counter galley. The starboard counter has deep sink and a flush lid 25 lb. ice box. The port counter provides space for a flush mounted two-burner stove as an option. The long wrap around settee will seat six adults with ease and sleeps two in roomy quarter berths. There are ample cruising storage spaces throughout her spacious interior.

The all new Cal 24, which will be designated T/4 has a sharp entry with a deep forefoot. The outside is a real departure from Bill Lapworth's past designs. Forward the Cal T/4 has a sharp entry with a deep forefoot which should make for exceptional upwing performance. She has a soft double chine. To improve her performance under the I.O.R. rule the swept-back external mounted lead keel has a 50% ballast to total weight ratio. This should make her stand up well to a strong wind. Her outboard rudder adds one foot to her overall effective waterline and is faired to the underbody with a unique kicker, a most unusual departure from Lapworth's previous designs. You must see this new Lapworth kicker for yourself for it is much too complex to describe. The T/4 is at the local Jensen dealers. Stop by and see for yourself what this all new exciting quarter tonner looks like.
