 Beam 8'6"
 Draft 4'0"
 Displacement 7500 lbs.
 Ballast 3000 lbs.
 Sail Area 365 sq. ft.
 Mast Height 38½'
 Designer Carl Alberg

The Cape Dory 27 is a diesel-powered auxiliary sloop capable of sailing most anywhere. She is a rugged yacht, with surprising speed and predictable handling. The 27 is an uncomplicated yacht universally admired by knowledgeable sailors.

She is an ideal cruiser with standing headroom, a complete aft galley — where ventilation is best — and where the cook can be part of the action in the cockpit. Privacy is provided by two separate cabins. In her main cabin, the bulkhead-mounted table swings up and out of the way when not in use.

She is a standout with generous use of teak trim on deck. Below deck, teak and other hardwoods are abundant and provide a warm, comfortable appearance. Her teak and holly cabin sole (floor) and lightning ground system are standard. Since there are many other standard features be sure to get the Cape Dory catalogue for complete listings.

The Cape Dory 27... what an exciting way to sail!
