

Catalina 22

mark II

T H E S A I L O R S C H O I C E

Fast, safe, and handsome. The Catalina 22markII continues to meet the needs of today's sailing family. Over 15,000 owners have made the Catalina 22 the m

A great place for the family to spend the weekend. There are large, lined storage bins under the seats, port and starboard. The standard plexiglass overhead hatch lifts to make the largest "pop-top" ever.

Catalina 22 *mark II*

The Catalina 22 has become the classic of trailerable cruising sailboats. A charter member of the Sailboat Hall of Fame, its practical design and solid workmanship have resulted in continuous production over the last 25 years. During that time, the comments and suggestions of owners all over the world have been the basis for constant design improvements. Keeping pace with the evolution of sailboat design and families' needs, the Catalina 22 is both contemporary and a classic at the same.

The introduction of the 22 Mark II edition brings more exciting design changes than ever before.

Inside you'll find a cabin that is nearly ten inches wider, with more comfortable and spacious seating. The functional table is fixed on centerline with built-in cup holders. The movable galley has been located aft, and slides

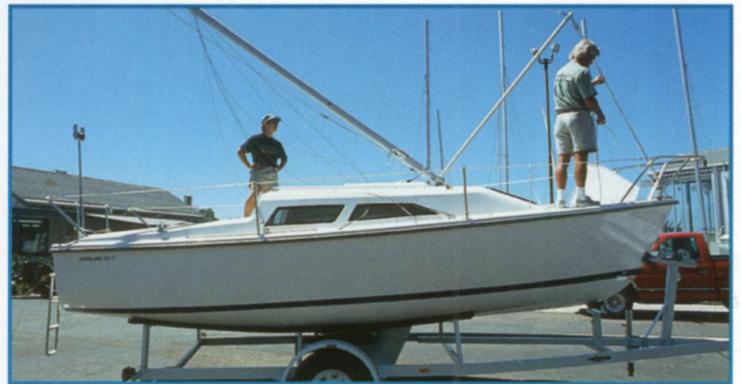

under the cockpit when not needed. This self-contained unit includes a fresh water sink, butane stove, cutting board, and storage compartment.

Overhead, the wide, new tinted plexiglass hatch slides to allow more natural light into the cabin. A pivoting feature makes it the easiest "pop-top" around.

On deck, additional width makes the walk forward safe and secure. The sleek, new cabin house uses no high-maintenance exterior woods.

The new mast raising system allows the skipper to accomplish this task singlehanded. The new lead ballasted centerboard has a molded fiberglass jacket, for years of trouble-free sailing.

With all these changes, one aspect has remained the same. To compete in the huge one design association, all underwater surfaces, rigging and sailplan have not been changed in order to maintain eligibility with thousands of other Catalina 22 sailors in established fleets.

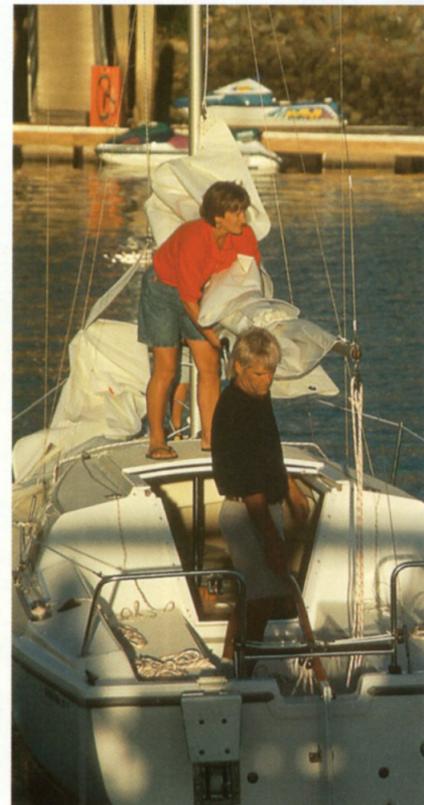

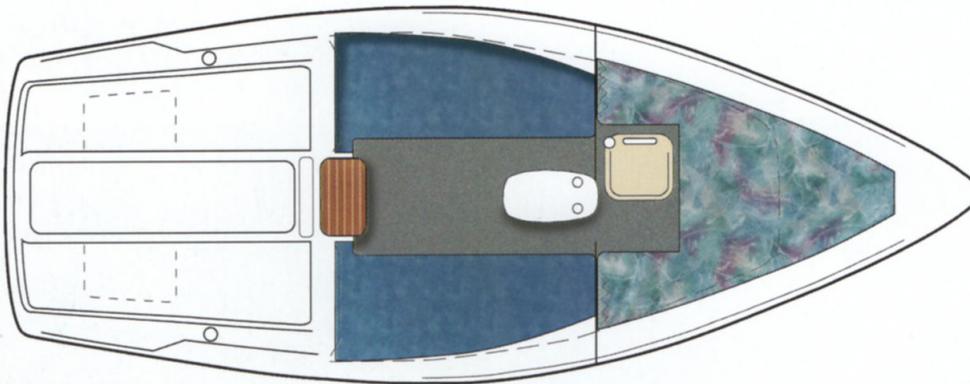

The mast raising system makes pre-launch preparation fast and easy.

Most popular family small cruiser in history.

A 48 quart removable cooler and available galley provide all the necessities for enjoyable meals aboard. The forepeak can be curtained off for privacy in the head or with center cushion in place, as forward berth.

PRINCIPAL SPECIFICATIONS

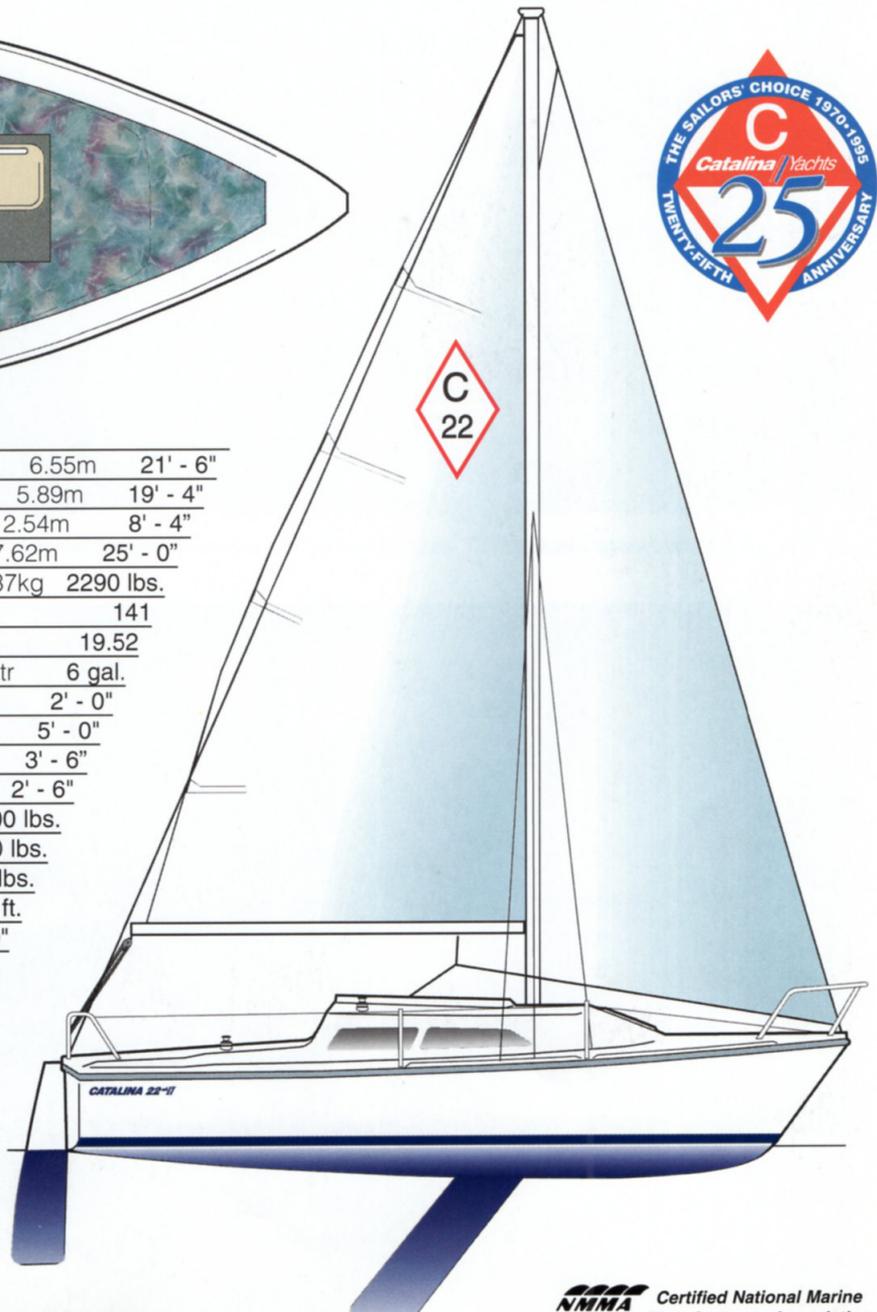

L.O.A.	6.55m	21' - 6"
L.W.L.	5.89m	19' - 4"
Beam	2.54m	8' - 4"
Mast length	7.62m	25' - 0"
Designed Weight	1037kg	2290 lbs.
Displacement/Length ratio		141
Sail Area/Displacement ratio		19.52
Fuel Locker for portable	23ltr	6 gal.
Draft (Retractable Keel)	board up 0.61m	2' - 0"
	board down 1.52m	5' - 0"
Draft (Fin Keel)	1.07m	3' - 6"
Draft (Wing Keel)	0.76m	2' - 6"
Ballast (Retractable Keel)	227kg	500 lbs.
Ballast (Fin Keel)	317kg	700 lbs.
Ballast (Wing Keel)	294kg	650 lbs.
Sail Area (100% Foretriangle)	19.04m ²	205sq. ft.
I	7.87m	25' - 10"
J	2.44m	8' - 0"
