

# Catalina 25

## THE CONCEPT

The Catalina 25 is designed to provide the comfort, performance and style of a large yacht in a practical-sized, trailerable boat.

Her modern full hull shape, with a long waterline and horizontal skeg aft, gives you all of the most desired performance characteristics, sure handling and easy motion, together with competition speed and a well balanced helm.

Her low-swept trunk cabin features large, sturdy hatches for good ventilation and plenty of safety glass windows for light and visibility. Yet, keeps the traditional graceful low profile and appearance of the finest classic yachts.

We've used the tremendous volume of her full hull shape to create an interior that's spacious and luxurious. Your family and friends can relax in comfort and in style, whether your outing is a weekend sail or an extended cruise.

Dinette interior shown, traditional interior also available.

## ACCOMMODATIONS

The Catalina 25's self-bailing cockpit is roomy enough for the family, guests, or racing crew. The cockpit seats are generously wide and have comfortable, angled seat backs.

Beneath the port cockpit seat, you'll find a huge locker with ample storage for an outboard, sails, fuel tank, and safety gear.

The interior is spacious. The galley is roomy, efficient and handy to the cockpit. When equipped with a top-loading icebox, a two-burner stove, stainless steel sink and Formica counter tops, it makes meals on board fun and easy to prepare.

You may choose either the dinette interior (shown above) or the alternate traditional table arrangement. Both provide comfortable seating for the entire crew.

The Catalina 25 has overnight accommodations for five adults and two children sleeping a total of seven.

The adults have permanent berths, including the unique double aft quarter berth and a private forward cabin.

Two children can sleep comfortably in the convertible double berth made from the traditional or dinette tables.

You will be pleasantly surprised at how much usable storage space is built in under the seats and berths.

To compliment the Catalina 25's comfortable, easy-to-care-for accommodations, the main cabin is trimmed with solid teakwood for warmth and traditional beauty.

A wide selection of options, upholstery fabrics, vinyls, carpets, and molded in exterior colors invite you to create your own distinctive Catalina 25.
