## The Catalina 25

The Catalina 25 is designed to provide the comfort, performance and style of a larger yacht in a practical-sized, trailerable boat.

Her modern full hull shape, with a long water line and horizontal skeg aft, gives you all of the most desired performance characteristics, sure handling and easy motion, together with competition speed and a well balanced helm.

Her low-swept trunk cabin features large hatches for good ventilation and an integral pop-top for increased headroom, while maintaining the traditional graceful low profile and appearance of the finest classic yachts.

We've used the tremendous volume of her full hull shape to create an interior that's spacious and luxurious. Your family and friends can relax in comfort and in style, whether your outing is a weekend sail or an extended cruise.

The Catalina 25's self-bailing cockpit is roomy enough for the family, guests, or racing crew. The cockpit seats are generously wide and have comfortable, contoured seat backs.

Beneath the port cockpit seat, you'll find a locker with ample storage for an outboard, sails, and safety gear, and a molded in locker aft, designed for the outboard fuel tank.

The interior is spacious. The galley is roomy, efficient and handy to the cockpit. Equipped with a top-loading ice-box, a two-burner stove, stainless steel sink and Formica counter tops, it makes meals on board fun and easy to prepare.

The traditional centerline salon table folds open to provide room for the whole crew to enjoy meals together, and stows neatly against the bulkhead when not needed.

The double aft quarter berth and the forward V-berth area afford the privacy and comfort of separate cabins for two couples or the cruising family.

You will be pleasantly surprised at how much usable storage space is built in under the seats and berths.

To compliment the Catalina 25's comfortable accommodations, the main cabin is trimmed with solid teakwood for warmth and traditional beauty.

With the Catalina 25 you have a choice of tall rig or standard rig masts and fin or shoal draft wing keels.

A wide selection of options, choice of upholstery fabrics, vinyls, carpets and molded in exterior colors invite you to create your own distinctive Catalina 25.

The main cabin, view looking aft. The accommodations and use of space are outstanding for a twenty-five-footer. The new Catalina 25 has a larger flat cabin sole and increased headroom throughout.
