*A truly stunning yacht from any angle, the Catalina 28 markII is built with the quality and attention to a sailors' sense of details that make her a sailing pleasure.*

*The warm and inviting main cabin is a masterful blend of rich, contemporary fabrics and the timeless beauty of teak and ash traditional finishes.*

*Natural light and ventilation abound through numerous opening ports and hatches.*

*The new galley is a marvel of space planning and convenience.*

*Separate lockers for utensils, pans and dry food are all well located.*

*The countertops are durable, easy to clean one piece molded surfaces.*

*A gimbale, stainless steel stove converts to counter space with the handy flip up cover.*

# Catalina 28markII

asure that you'll look forward to enjoying on any waters.

*T*he Catalina 28markII is an all new design for the 90's. Incorporating the best modern features with Catalina's classic styling. This careful blend of innovation and traditional values insure the new Catalina 28mkII will pass the test of time.

Notable features of the deck are the walk-through transom, stern boarding platform, and easy access forward on the wide unobstructed weather decks.

The ergonomically correct cockpit seats and coamings reflect an understanding of the importance of the cockpit to the comfort of the crew. Roomy, functional cockpits are a Catalina hallmark. The sail controls, including the single line reefing system, all lead to the security of the cockpit. The rig is masthead with double spreaders and fore and aft lower shrouds permitting powerful headsails and narrow sheeting angles for good windward performance.

The interior is spacious and comfortable. The galley and head are aft for convenience to the cockpit. Special attention has been given to the traffic patterns, ventilation, storage and privacy. The new galley features molded countertops and increased storage

The headroom is generous and all berths are extra long, uncommon but welcome features in a twenty-eight footer.

To encourage you to create a Catalina 28 especially for your kind of sailing, an extensive list of equipment including a choice of wing or fin keel models is available.

*The cockpit is where you spend a lot of time aboard, so the extra space and carefully thought out details become very important.*
