The saloon comfortably seats the whole crew for meals or for lounging. Teak and ash wood finishes create a warm, yet light and airy atmosphere.

The New Catalina 42

The Catalina 42

The Catalina 42 is the largest and most luxurious yacht to bear the Catalina name.

Conceived as the ultimate Catalina, the 42 interprets the needs and desires expressed by many sailors considering a yacht in the over-forty-foot class.

First among these requirements are speed undersail, and easy predictable handling characteristics. The hull of the 42 is high volume, but easily driven, with a fine entry, firm midship section, and smooth run aft terminating in a modified reverse transom.

A long horizontal skeg runs aft between the fin or wing keel and the rudder for sure tracking. The rudder is large and balanced, ensuring control in all conditions.

An important consideration for many cruising sailors is the ability to realize the boat's performance potential undersail with a short-handed crew.

The Catalina 42 deck was designed with short-handed sailing in mind. All the halyards, the mainsheet and the single line main reefing controls are led to the cockpit and placed to be operated from under the doger when necessary.

The wide weather decks and inboard shroud base make passage forward easy and secure.

The available below deck electric windlass and stout bow roller take the hassle out of anchor handling.

The interior of the Catalina 42 is carefully planned to accommodate the modern sailing family's lifestyle.

The interior spaces forward of the main bulkhead are devoted to a luxurious owners' cabin where ventilation and privacy are optimum.

The two guest cabins and a second head are aft, separated from the owners' accommodations by the main cabin.

The main cabin is designed for contemporary, casual entertaining with the galley an integral part of the social activity.

The ice box is well insulated. The galley is thoughtfully arranged for efficient meal preparation.

Mechanical, electrical and plumbing systems are carefully assembled to a high standard.

The Catalina 42 is a modern cruising yacht built to Catalina's high standard of value.

The galley is a joy for the cook with an opening port and overhead hatch for ventilation and light. The over counter cabinets incorporate space for the microwave oven.

The owners' cabin, forward, has cedar lined hanging and clothes lockers, a dressing seat and bureau. Four opening ports and two overhead hatches ensure excellent ventilation. The owners head, forward, has a large overhead hatch, two vanity counters, and a dressing mirror.

The main cabin: view aft. Note the angled ladder treads, the engine is fully accessible behind the hinged ladder unit. The teak doors outboard of the ladder are to the aft cabins. The head is to starboard, the navigation desk is to port.

Catalina 42

Built in the U.S.A.

The stern platform is easily accessible from the cockpit. A hot and cold hand held shower unit is stowed beneath the teak step to the cockpit.
