# The Vanguard Club/Collegiate 420

*The Club/Collegiate 420 is built with the same care and attention to detail as the International 420 but with a different aim. In order to run a successful sailing program you need a boat that is tough, durable, and fun to sail. We are proud to say that Vanguard is America's number one club and collegiate boat builder and that the reason is our Club/Collegiate 420. The list of programs using Vanguard Club/Collegiate 420s reads like the Who's Who of sailing. School programs which use the Vanguard Club/Collegiate 420 include Yale University, U.S. Naval Academy, Northwestern University, Tabor Academy and The Hotchkiss School. Vanguard equipped Yacht Clubs include Noroton, Vineyard Haven, Clearwater, Chicago, and Seattle. The Inter-*

*national 420 is the official advanced trainer of the Long Island Sound JYRA and the Club 420 is the basic building block of the very successful Southern Massachusetts Yacht Racing Association program.*

*The Club 420 is built from the same molds as the International 420 but it has been specially beefed up to withstand the trials of club use. We laminate in additional fiberglass to make the hulls rugged. We install tough fittings, heavy duty spars and rigging to minimize breakdowns that are not only costly in dollars but in sailing time. The result is a 420 that weighs about 40 pounds more than an International, but which has an awesome record of durability and reliability.*

*We are proud to build high performance racing boats for the world's finest sailors at Vanguard. We also think that by building the best instructional boats for yacht clubs and schools, we contribute to the education of tomorrow's champions.*
