

Edel Cat 35

35'

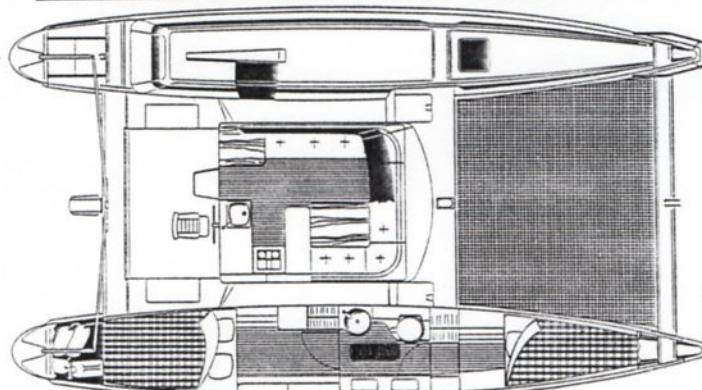

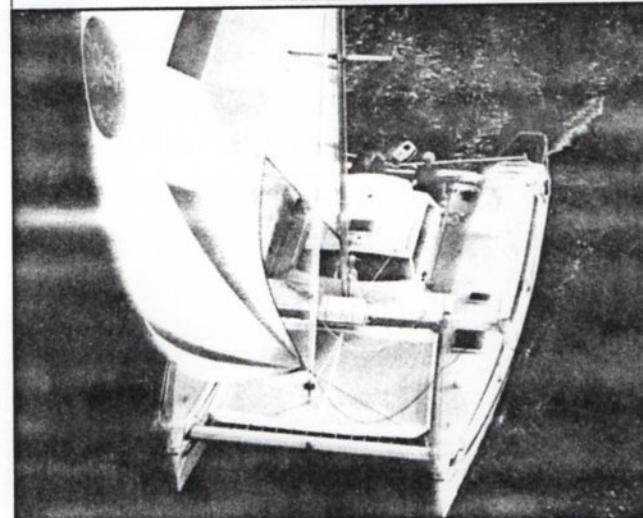

Edel Yachts has been producing quality boats in France for more than 25 years, and is now well established as a leader among builders of high-performance cruising catamarans.

Having demonstrated its qualities throughout the world, particularly in the very demanding charter industry, the Edel Cat 35 holds excellent performance and safety records that other boats can merely emulate.

The Edel Cat 35 has been ideally designed to provide exhilarating sailing while accommodating 8 persons in full cruising comfort. Each hull contains two private double berth cabins, separated by a head complete with sink and shower. The bridgedeck cabin features an 8-person dining table, chart table, and full galley with stove, oven, sink, and propane refrigerator. All interiors are beautifully finished with solid wood, teak and holly cabin soles, and textured gelcoat.

The boat hulls and the integral shoal keels optimize hydrodynamic profile and performance to windward. Attaining speeds in excess of 20 knots is quite typical. The low-windage bridgedeck cabin allows for exceptional visibility and access to the entire deck, while the sleek under-bridge design eliminates wave slam. A high beam-to-length ratio ensures extreme stability and safety in even the roughest seas.

A generous 720 square feet of sail area, a fully-battened easy-to-reef main, a furling jib, and the most reliable fittings complement the hull design and contribute to fast, uncomplicated cruising.

The hull, deck, and bridgedeck are constructed of reinforced molded fiberglass. Deck and hull are joined under pressure, and the hull skins are reinforced with Dvinycell foam core. The hulls are also fitted with a high-density polyurethane foam core to create a positive flotation vessel. Edel Cat hulls and bridgedeck are molded independently. The two hulls are then strongly united by three extruded alloy crossbeams, upon which the bridgedeck is mounted. The rigidity achieved by this crossbeam construction is far superior to that of traditional single-mold designs.

Edel Catamarans. "High Performance Cruising" ...no longer a contradiction of terms!

L.O.A. 35' 0"
L.W.L. 31' 6"
Beam 19' 10"
Draft:

Shoal Keel 2' 10"
Displacement 7,000 lbs.

Sail Area 720 sq. ft.

Rig Dimensions

Foretriangle:

I (Height) 29' 3"
J (Base) 18' 4"

Main:

P (Luff) 37' 9"
E (Foot) 15' 9"

Rig Z Spar

No. of Berths 8

Water Capacity 60 gal.

Auxiliary 10 H.P. Twin Yanmar Diesel

Sails Taskar

Winches Barent

Stove Plastimo
