

# Flying Scot 19

19'

**W**hile other one-design sailboats have come and gone, the Flying Scot is still sailing strong after 31 years.

The Scot is virtually unchanged from the original Sandy Douglass design of 1957. No compromises have ever been made in construction specifications; no hidden shortcuts, no substitutions, no reductions. That's why more than 4,400 Scot owners consider the Flying Scot investment a real bargain.

The 19' family boat keeps her value and integrity year after year. Almost every Scot ever built is still on the waters today.

The Scot is safe, roomy, comfortable, remarkably stable, yet challenging. She's sailable for youngsters while widely enjoyed by experts. One person can rig it, but it's spacious enough for six adults. The large, dry center cockpit lends plenty of head-

room and storage space.

It's a solid investment. The hull and deck are constructed of hand laid-up fiberglass, and every Scot is made from the same original master mold. The oldest hulls are still winning as many races as the newest ones. Her quality endures.

L.O.A.....	19' 0"
L.W.L. ....	18' 6"
Beam.....	6' 9"
Draft:	
Board Up .....	0' 8"
Board Down.....	4' 0"
