Freeport 41

SPECIFICATION AND OPTION LIST

CONSTRUCTION

- Hull and deck are hand laminated reinforced fiberglass
- Colors are permanently molded into the hull and deck during the laminating process
- Non-skid surface is permanently molded into the deck
- The interior is modular construction using marine grade plywood. The modular components, floor timbers, engine beds, bulkheads and other structural members are bonded with fiberglass to the hull and to the deck where it is appropriate.
- The keel ballast is internally fiberglass bonded in place
- The rudder is a high-density foam blade with a stainless steel rudder post

PROPULSION

- Pathfinder 85 fresh water cooled 85 HP diesel
- Enclosed engine instrument panel features tachometer with alarm system, hour meter, volt meter, fuel, oil pressure and water temperature gauges
- 1 1/4" stainless steel propeller shaft
- Three-bladed bronze propeller
- Fuel tank — 188 gallon welded aluminum with deck fill
- Muffler is aqua-lift type
- Sound proofing in engine room

ELECTRICAL

- Wiring — color coded
- Four heavy duty batteries with selector switch
- D.C. electrical control panel featuring circuit breaker protected electrical system, battery monitoring volt meter located in walk-thru
- A.C. system 110V with double pole main breaker and outlets conveniently located throughout
- Lighting system 12V
- Courtesy lights at cabin sole
- Ice box light
- Anchor light on mast
- Combination steaming and deck light on mast
- Companionway light and switch independent of main D.C. electrical panel

PLUMBING

- Water tank — 188 gallon stainless steel located below main salon cabin sole
- Hot and cold pressure water system with 10 gallon water heater
- Foot pump and faucet in galley for fresh water system
- Telephone type showers with hot and cold pressure faucets and curtains
- Polybutylene fresh water distribution system
- Bilge pump 15 gal/min. diaphragm type operated from cockpit
- Electric bilge pump with automatic float switch

- All thru-hulls and ball valves are Dupont Zytel to minimize electrolysis. All valves are clearly tagged
- Manual operated heads with 35 gallon marine holding tank with manual pump for either deck or overboard discharge

GENERAL INTERIOR

- Oiled teak bulkheads and joiner trim
- Teak and holly cabin sole in main salon and carpeted cabin sole in forward and aft cabin
- Cedar lined hanging lockers
- Formica countertops
