# 15

# galilee 15

When you first look at this exciting new sailboat you'll discover that the **Galilee 15** is not an ordinary day sailer. From her sleek flowing lines to her many practical features, she's all you'll ever want in a day sailer. Let us give you a few facts about day sailers: First of all, a day sailer is either extremely sensitive and high performing or slow and unmanageable, being about as responsive as a floating bathtub. With the **Galilee 15** there is a meaningful alternative. The **Galilee 15** is fast and responsive yet stable, while teaching you even when you make a mistake. She is a roomy day sailer that you can get into rather than on.

With her unique hull design and low wetted surface you'll leave others behind when there's not enough wind to blow out a match. In heavy winds, the rounded hull and the 6'8" beam creates superb stability. Few if any day sailers are as stable as the **Galilee 15**.

There isn't a day sailer manufactured that includes so many standard features. You will find a foam insulated ice chest equipped with a drain; and a storage compartment for the convenience of storing your gear while having enough room for a paddle. These and many other fine features make the **Galilee 15** the best value available today.

Come and see for your self why the **Galilee 15** will be the day sailer all others will be judged by. Take a close look at everything you receive when you buy a **Galilee 15**. When you purchase our day sailer you will have the satisfaction of making a safe and solid investment in a true quality built day sailer.
