

The **Ghost** *13*

A ROOMY DAYSAILER, A ONE DESIGN RACER

Ghost 13

Fast, Simple Racer

The Ghost 13 is one of the most versatile daysailers ever developed. Its uniqueness starts with the lightweight fiberglass hull that is easily car-topped and its roomy, comfortable cockpit that can only be appreciated by having a family of six stretch out in the full length seats. Further, the Ghost 13 is a fast and responsive racer that planes in a breeze and moves well in light air. Its strict one design class rules and complete race rigging is your assurance that the boat is always competitive and extra go-fast is not necessary.

With hundreds of Ghosts in every corner of the U.S. the Ghost is the perfect answer for an inexpensive, high quality all-around modern sailboat. Ask your dealer for a test today.

Roomy Family Boat
