Hull type:	Vee bottom hard chine hull developed for sheet plywood planking
Sail type:	Cat rig with centerboard

The GLEN-L 13 is an ideal all-around general purpose sailing craft. The cockpit is plenty roomy for family sailing, and yet the simple rig can be easily handled by one person. Here's a safe boat, but one which gives good performance and nimble handling. Two years were spent in the research, design, construction, and testing of the prototype to prove this design before offering it to you.

The lightweight sturdy plywood construction makes trailering to your favorite body of water easy. A trailer designed especially for the GLEN-L 13 is detailed right on the PLANS. Whether you build from PLANS & FULL SIZE PATTERNS or a FRAME KIT, the GLEN-L 13 is a boat specifically developed with the amateur builder in mind. And the cost is low! To further simplify the construction, you can completely outfit your own GLEN-L 13 by using the various kits we have made available just for this design.

COMPLETE PLANS plus **FULL SIZE PATTERNS** for the rudder, centerboard, centerboard trunk, bed logs, knees, stem breasthook, and half-section patterns for each of the frames and transom. Includes instructions, Bill of Materials, and Fastening Schedule.

GLEN-L 13 HARDWARE KITS
