

GLEN-L 19

A 19' TRAILERABLE OVERNIGHTER SLOOP

The easy-to-trailer **GLEN-L 19** features rakish styling enhanced by optional full length "black-out" side windows and long, lean lines. The beamy, hard-chine hull features a steel plate centerboard plus some internal ballast (steel pigs will suffice) and a large sail area for a combination of speed and stability. A feature that distinguishes this boat from our other designs is its lack of a centerboard trunk intruding into the cabin, thereby giving it a spaciousness seldom found in a boat of this size. The cabin has berths for four plus room for a compact galley and head, all with sitting headroom.

The **GLEN-L 19** cockpit is also generous in size, and self-draining. The easily controlled rig requires only a minimum of fittings, while lightweight, sturdy plywood construction keeps costs low. The size of the boat makes it ideal for building and storing in the average garage. Auxiliary power can be provided with a transom mounted outboard up to 10 HP.

CHARACTERISTICS

Length overall	19'-3"
Length waterline	16'-8"
Beam	7'-9"
Draft (board up)	1'-8"
Draft (board down)	3'-10"
Freeboard forward	2'-11"
Freeboard aft	2'-1/2"
Displacement	1900 lbs.
Hull weight (approx.)	600 lbs.
Ballast weight	400 lbs.
Average passengers	2-4
Sleeping capacity	4
Cockpit size	5'-6"x6'-0"
Sail area: Main	82 sq.ft.
Jib	83 sq.ft.
Genoa	129 sq.ft.
Total	165/211 sq.ft.

Hull type: Vee bottom hull with sheet steel centerboard and internal ballast keel, developed for 3/8" sheet plywood planking.

Sail type: Masthead centerboard sloop.

Power: Outboard motor to 10HP mounted on removable transom bracket (optional).

Trailer: Designed for use with GLEN-L SERIES 1700 boat trailer plans.

COMPLETE PLANS plus **FULL SIZE PATTERNS** for the stem, breasthook, centerboard trunk sides and bed logs, and half section patterns for the frames, bulkhead, transom, and deck beam. Includes Instructions, Bill of Materials, and Fastening Schedule.

BUILD IN PLYWOOD

ACCESSORY KITS
