| SAIL AREA (Genoa)   | 98'       |
| MAST ABOVE DECK:    | 22'-0"    |

## CONSTRUCTION

Hull, deck, cabin, and cockpit are quality built of no-maintenance molded fiberglass with locked-in choice colors and non-skid surfaces. Limited exterior wood surfaces are the finest teak. Fittings are of stainless steel and nylon or aluminum; sails of dacron. All rigging is stainless steel.

## LAUNCH OR TRAIL

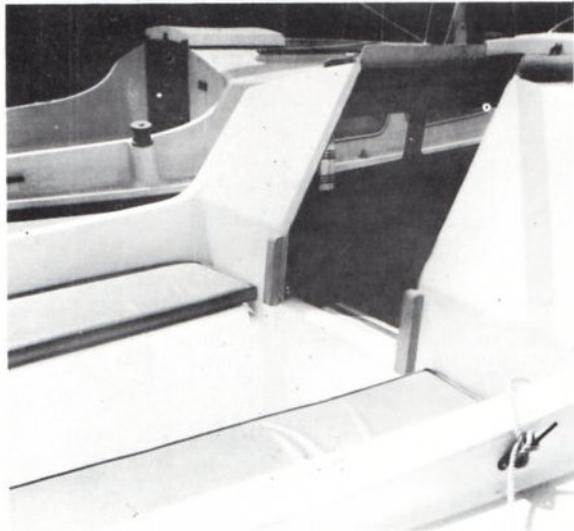

The HMS-18 is easily trailed by the smallest car, yet once afloat, you have a yacht that can be lived on most comfortably over weekends and those summer vacations. She also fits a standard garage. Keel is fully flush with bottom of hull when in trail position. A small removable winch that mounts forward of the hatch on deck raises and lowers keel as required.

# NEW STANDARDS OF SPEED & QUALITY

Like the Potter, the HMS-18 is the most stable boat anywhere near her size. High free board makes her a dry sailer. Long clean underwater lines and light displacement make her very fast. She sails on her bottom which means very little heel — the answer needed to convince the wife that this is the only boat to own.

## COMFORT PLUS

The most comfortable cockpit afloat. She has wide bench seats — chair height. Wide flat coaming to rest your arms on. Sloped cabin back so that guests can lean back in solid comfort. No bumping of knees in this spacious six-seater cockpit. Self-bailer is at rear which keeps your cabin dry. No more stepping from a wet cockpit into a dry cabin.

## FOUR BIG BUNKS

The lovely, roomy interior has four 6'6" bunks, — mahogany cabinets — one for storage of cooking equipment and food and the other to conceal the marine toilet. There are two dinette seats with comfortable seat backs which allow space for four at the removable mahogany dining table. All cushions are 3" high density foam. You and yours can sleep comfortably in this boat — none of the back-breaking routine that is found in most boats up to 21'. Even the largest adult can roll over in our quarter berths. The HMS-18 has as large an interior as can be found in any boat up to 21' in length — with 5' head room.
