**** CONSTRUCTION ****

One-piece hand laid hull with molded sheer knuckle for longitudinal strength. Molded boot and sheer stripe with choice of colors. High strength cored transom. One piece balsa cored deck with molded toe rail for longitudinal strength and safety. Molded non-skid pattern on all walking surfaces. One-piece headliner for clean appearance and troublefree maintenance. Molded inner liner/interior assembly, bonded to hull to form an integral framing system. Hull-to-deck joing bonded and fastened with stainless fastenings. Stainless steel chain plates with additional deck reinforcement. Double lower shrouds and split backstay. Large rubrail to protect hull finish. Externally mounted lead ballast. Sea cocks on all thru hulls. Two large 1½" cockpit scuppers.
