

Hobie Cat 16

the big Hobie Cat 16[®]

Reefable mainsail — with or without the jib . . .
makes heavy weather sailing a breeze!

Asymmetrical hulls (curved on the inside, flat on the outside) eliminates need for troublesome centerboards . . . fast speeds to 25 mph with skipper and crew . . . easy to sail even solo with reefed main . . . controllable kick-up rudders . . . sail anywhere draws only 10 inches of water . . . safe unsinkable hulls and bouyant mast can be righted easily.

Wild or mild . . . the Hobie Cat 16 meets every wind and sea condition on its own terms . . . with you and a full crew aboard. Driving hard on big surf, or ghosting along on a gentle inland zephyr, the Hobie Cat 16 delivers all the excitement you can handle. The sailing newcomer will also appreciate her forgiving agility. Little wonder why thousands of new sailors chose the Hobie Cat for their first boat. Experience earned building over 4,000 catamarans helped us develop a faster, big crew Hobie Cat with all the 14's quality and unique design features.

Join the world's fastest-growing action fleet . . . the Hobie Cat Class Association. Family-style regattas held nationwide offer a friendly challenge to every skipper, experienced or novice, and sharpen his sailing skills. More than 2,000 Hobie Cat skippers actively compete in local and national regattas. (No wonder the demand for Hobie Cats makes used ones almost non-existent!)

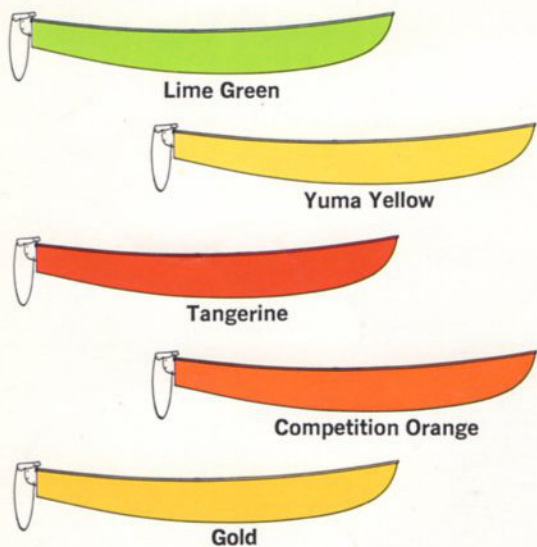

The Hobie Cat 16 is readily trailered, rigged and launched in minutes. Explore those new bays, lakes and oceans . . . now within your reach. At 315 lbs., launching or beaching is never a chore. The controllable flip-up rudders automatically kick up when beaching, and the asymmetrical hulls eliminate the need for centerboards.

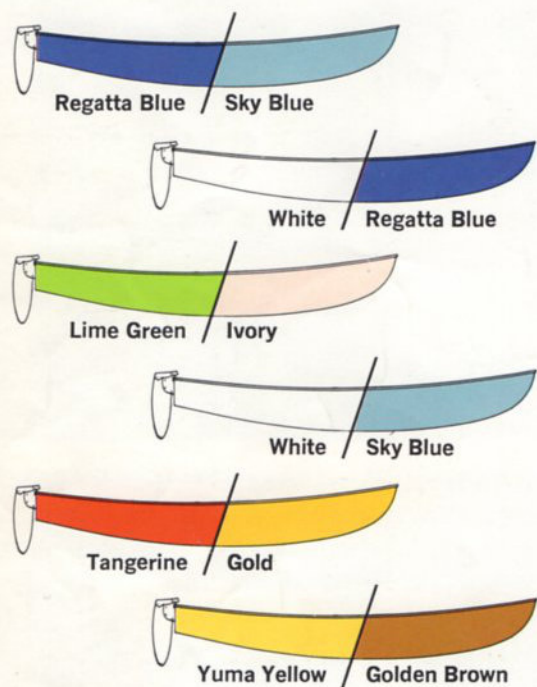

The full-battened jib helps the bow across the wind and makes faster tacks possible. The unique cam-action jib-blocks allow easy sail handling without the usual jib sheet clutter.

In heavy-going solo, fly the reefable mainsail alone, or bend on all 218 square feet with the trapeze and FLY!
. . . this is sailing!

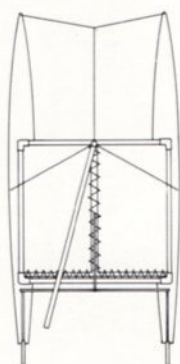

Standard hull color/ deck color combinations

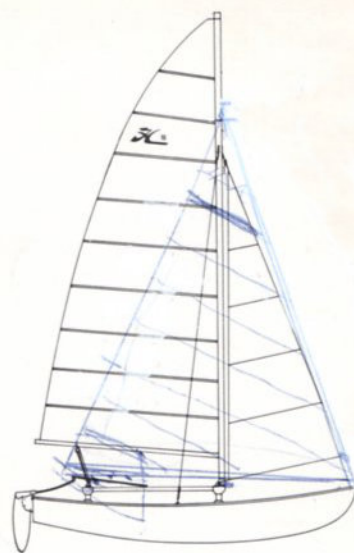

Other two-color hull and deck combinations are available.
