

# Holder Hawk

9'

**T**he Holder Hawk is a superb small sailboat. Yacht clubs, junior-sailing programs, and adults have discovered the fun, safety, and performance of sailing the Hawk.

The Holder Hawk is lightweight, so it planes easily. Boomvang, outhaul, and downhaul controls allow beginners to learn all the finer points of sailing and sail tuning. The daggerboard, kick-up rudder, Comptip™ mast, and hiking strap add to the excitement and make this boat more than just a trainer. It really performs.

More important, the Holder Hawk cockpit is self-bailing and, with positive foam-hull flotation, it is virtually unsinkable. In the event of a capsize, a tug on the rail has the boat righted in seconds.

The Holder Hawk is built by Hobie Cat, one of the largest builders of quality sailboats in the world. The finest

materials and hardware are used, and the Hawk is backed by a five-year limited warranty. Each owner is automatically a member of the Holder Class Association. Prices from \$1,295. FOB Oceanside, CA.
