HUNTER 170

Designed by the Hunter Design Team and produced by using the patented Advanced Composite Process, the new Hunter 170 is the ultimate daysailer. Seating for six is no problem with the wide open and uncluttered cockpit. The open transom allows for great access for swimming or boarding and there is even a dual access storage area forward to store your provisions. A wide beam will keep you stable while the hull design will really perform on all points of sail. Beginner or seasoned sailor alike will both appreciate the simplified rig with a large main and small jib. A kick-up centerboard and swing-up rudder makes beaching or landing a snap.

Durability and safety are a priority. The Advanced Composite Process integrates ABS plastic, high density foam and stitch bi-directional cloth into a tough, unsinkable hull which is far more impact-resistant than traditional fiberglass.

Top-name hardware and sails complete this package into a great family daysailer. See it today at your nearest Hunter dealer.

Uncluttered Cockpit

Easy to Handle Rig

Roller Furling

Dual Access Storage

HUNTER

STANDARDS / OPTIONS

Hunter Marine Corporation has been a leader in sailing innovation for over 25 years. Warren Luhrs set out to build a no nonsense sailboat that was truly affordable to the average sailor. He also took his ideas and many others to sea in his offshore racing boats. But the single most important resource in building Hunter to an industry leader has been the Hunter Owner. Their enthusiasm has spawned thousands of great ideas and suggestions on how to make our boats easier to sail, more comfortable and perform better.

SPECIFICATIONS

LENGTH OVERALL	17'1"	5.21m
LENGTH WATERLINE	12'1"	3.68m
BEAM	7'	2.13m
DRAFT BOARD UP	6"	0.15m
DRAFT BOARD DOWN	4'6"	1.37m
WEIGHT	480 lbs.	218kg
WEIGHT (BOAT & TRAILER)	815 lbs.	370kg
SAIL AREA	150 sq.ft.	13.95m ²
MAST HEIGHT	25'6"	7.77m
