

# Hylas 42

42'

**T**his German Frers design is one of the most comfortable, best-performing cruisers of its size. The Hylas 42 has sleek lines and a tall sloop rig, which allow her to be driven in the lightest of winds. A ballast-to-displacement ratio of 50 percent assures stiff weatherly performance in a heavy blow.

Accommodations below reflect the careful planning of the designer and builder. They are both luxurious and practical, providing maximum cruising comfort and extensive storage for yachtsmen with a craving for extended cruising. The owner's aft stateroom features a walk-around centerline queen berth and ample cabinetry. Guest accommodations are forward of the large saloon. A convenient galley and separate nav station share the excellent ventilation provided by the many opening ports and hatches.

The interior features a tasteful use of teak with joinery work of the highest quality, a hallmark of the Queen Long Yard. Some customizing is possible, enabling each yachtsman to modify the accommodations to suit his taste and needs.

The Hylas 42 is available with a deep keel or with a patented Scheel keel, which enables it to enter waters as shallow as 4'10". Both configurations

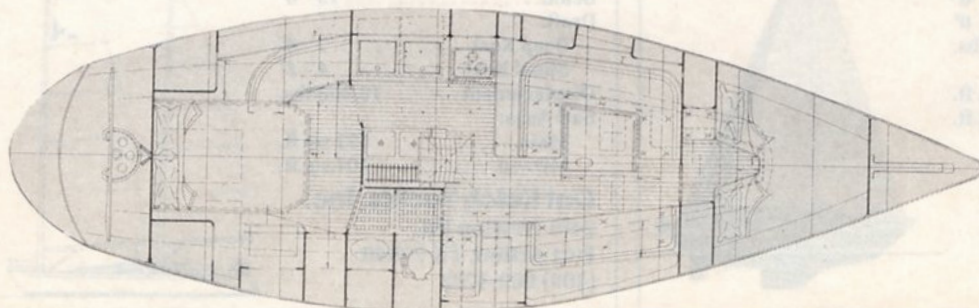

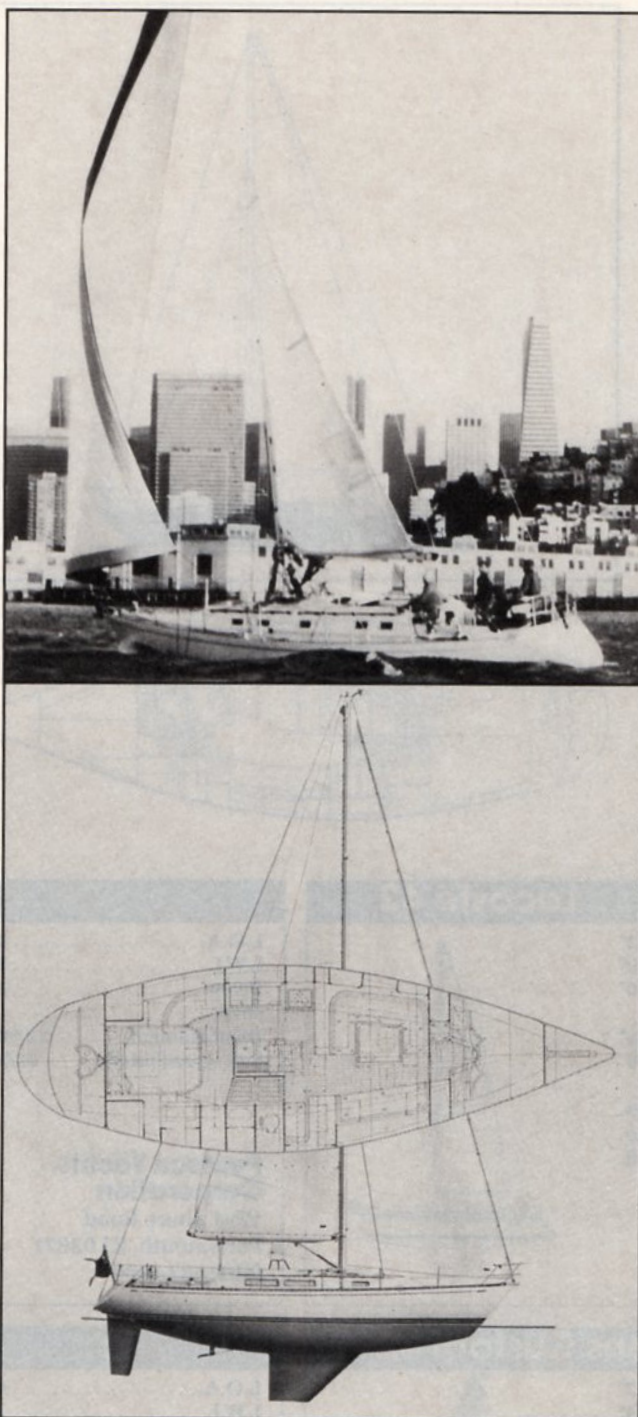

retain the high-performance capabilities for which Hylas Yachts are renowned.
