

# Island Packet 27' 27'

**W**ith almost 100 yachts since its introduction two years ago, the Island Packet 27 is quickly establishing itself as a new cruising classic. Featuring the highly successful Island Packet design concept, the Island Packet 27 offers today's cruising sailor the unique advantages of spirited performance with exceptional control and seakeeping qualities. It includes a broad beam, modern full keel with handsome traditional styling, and a generous yet easily managed rig. The moderate draft full keel, or optional shoal keel with centerboard, gives the full capability for bluewater passing as well as exploring shallow coastal waters.

The spacious accommodations of the Island Packet 27 are normally found only in yachts of much greater length. The broad beam design affords an exceptional amount of interior room and liveability, allowing for a variety of guest accommodations. The large V-berth with curtain for privacy makes a comfortable, bright and well-ventilated cabin. The enclosed head compartment features a deluxe vanity, shower with seat, and a large cedar-lined hanging locker. The spacious main salon comfortably seats a group for dining or, with table folded up, offers an inviting social atmosphere. The roomy quarterberth area includes an electronics cabinet and full-length shelf. The well-equipped galley is convenient to both salon and cockpit, yet is free of companionway traffic.

Teak bulkheads and trim,

and teak and holly sole, combined with coordinated designer fabrics and surfaces, impart a feeling of luxury and warmth below. Ample light and ventilation are provided by several overhead hatches, all opening ports, and louvered interior doors.

Topside, the Island Packet 27 features large, unobstructed deck and cabintop surfaces. The roomy cockpit features contoured seats, engine access hatch, ice box, large lockers and rack-and-pinion wheel steering with helmsman's seat.

Distinctly in a class by itself, the Island Packet 27 has much to offer the knowledgeable cruising sailor. Contact us for more detailed information.
