

## MANUFACTURER'S COMMENT

Described by many as having the roominess of a 32-foot yacht, the Fantasia is truly a sleek 27-foot family sailboat. Designed by Philippe Harlé, she can be handled easily by a crew of two.

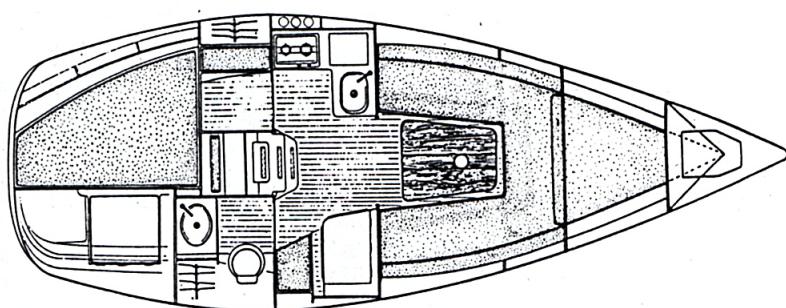

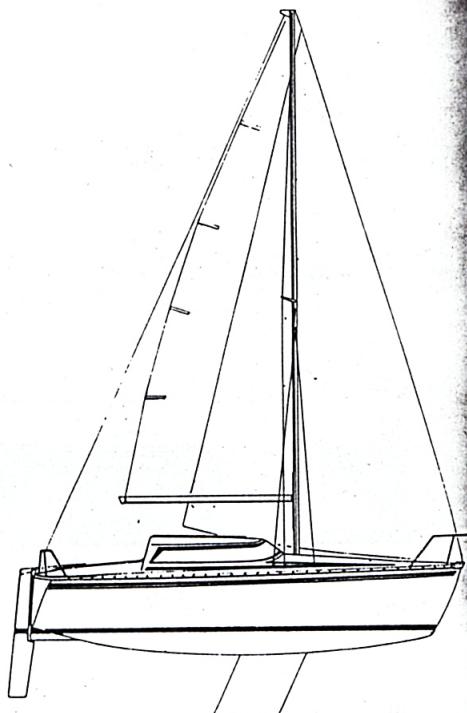

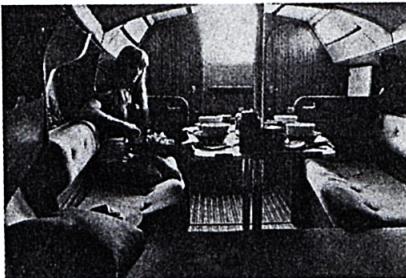

Harlé was able to fit an enormous amount of living area in a 27-foot hull. First, there is almost six feet of headroom throughout the interior. And there is a separate aft cabin with a double berth, a separate enclosed head, and a full navigation station not usually found on a yacht of this size.

The galley is L-shaped and has a two-burner, gimballed stove and a stainless steel sink. The dinette is U-shaped and comfortably seats four. In sum, the interior is heavily stylized and functional at the same time.

Abovedecks, the same emphasis is placed on human comfort. The deck is uncluttered for ease of movement around the entire boat, and the deck and cockpit are contoured for extra comfort while heeling.

Fantasia is offered in two keel configurations—a fixed keel (draft—5'0") and a centerboard (draft—2'7"/5'7").

Buying a Jeanneau Fantasia, or any of the other sixteen models ranging from 23 feet to 48 feet is truly an investment in value, quality, and just plain fun. Contact the office address listed below for a color brochure, specification sheet on the Fantasia, and the name and address of your nearest dealer.
