LASER	76 sq. ft.	140+ lbs.

THE  
 WIND

IS  
 FREE.

USE  
 IT.

**Laser** 

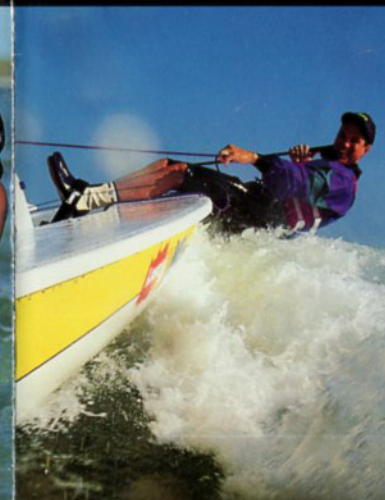

That's why Laser has been chosen  
 as the new Olympic racing class for 1996. And  
 why the International Yacht Racing Union  
 recognizes Laser as one of the few inter-  
 national sailboat classes.

By choosing a Laser, you become part of the  
 sailing world's most active racing asso-  
 ciations, not to mention a member of the most  
 active, spirited, fun-loving group of people  
 you'll find on or off the water. A Laser means  
 challenge. Camaraderie. Fast, furious fun for a  
 day and for a lifetime. The wind is free. Use it.

**Laser**   
 THE WIND IS FREE. USE IT.

Any sailboat can catch the wind. But only Laser® captures the spirit of sailing in its purest, most perfect essence. No other small sailboat can touch Laser when it comes to fun, freedom, and fierce competition.

Whether you've been sailing for a week or for a lifetime, you'll appreciate Laser for its sleek, uncomplicated design and exceptional performance. The unobstructed deck is great for blasting around with a friend, and the hull is quick to plane yet amazingly stable.

Above all, speed and simplicity are what make Laser stand out among the competition. As the original one design, Laser racing is all about investing in skills, not equipment. Because everyone sails the same thing, the true test is between athletes, not between boats.

LASER IS THE CHOICE OF TOP SAILORS  
AND SAILING PROGRAMS.

HERE'S WHY:

- **INTERNATIONAL LASER CLASS ASSOCIATION**
- **HYDRODYNAMIC SHAPED FOILS**
- **KICK-UP RUDDER SYSTEM**
- **TWO-PIECE MAST, LIGHTWEIGHT HULL**
- **CARTOPPABLE, NO NEED FOR TRAILER**
- **EASY TO STORE AND TRANSPORT**
- **VIRTUALLY MAINTENANCE FREE**
- **HIGH RESALE VALUE**
