

The M-20

YOUR SOURCE OF SAILING EXCITEMENT

The M-20 is a high performance two or three person boat with a high aspect ratio main and jib and a 200 sq. foot spinnaker. Being a true scow, it has double rudders and bilgeboards but is unique in that it has a tunneled hull. The tunneled hull adds stability, reduces wetted surface area, and narrows and lengthens the waterline while sailing to windward and promotes planing off the wind. The M-20 is perhaps the most stable high performance dinghy that you will ever sail. Competitive crew weights range from 260 to 450 lbs. The M-20 attracts a diverse group of people, ranging from the highly competitive to the casual sailor. We are a very healthy, family oriented class. There are 24 fleets with the largest fleets in Wisconsin, Indiana, Michigan, Minnesota, Colorado, New York, Texas, and Florida. There are at least seven major regattas a year, each drawing from twenty to fifty boats. The M-20 Class provides a fine blend of serious sailing with serious fun.
