## THE NEW MELGES MC

We invite you to visit famous Zenda, USA and see first hand how the world's strongest, lightest scows are constructed. The **MELGES** M-Preg laminating system is our revolutionary process that originated in Zenda and now is making the best boat builders around the world wondering how we do it! **MELGES** guarantees that no other boat will compare to an M-Preg laminated scow.

Following are some of the innovations that have set the **MELGES MC** far ahead of the competition. Our continued commitment to product development will keep our facility far ahead for the years to come. **MELGES MC's** are #1, here is why:

- New deck mold that features a modern high-tech non skid and a new sail control layout. This was new in the 1997 model year and proved to be the best control system. Also, the new MC deck is stronger and stiffer this equals speed.
- Brand new board system for 1998! Easy and light for your board pull up. Come check it out and see the new design in our Zenda showroom. High gloss interior parts for modern, high quality appearance. All bulkheads produced from **MELGES** molds to achieve extra strength and rigidity.
- Two-tone non-skid cockpit floor for good traction and superior appearance. Simplistic and efficient hardware layout for all sail controls Spectra and Marlow color coded sail control lines for low stretch and great looks! Fiberglass splash board, varnished wood tiller and boom rest. New cascade Vang system for effortless adjustment. Perfect spreader length and angle which has been achieved and proven over many years of racing. Main traveler moved forward to maximum rule allowance. This is faster. We only use the best racing gear on your new **MELGES MC**.

The **MELGES** service and knowledge is unbeatable. This accompanied with the very best produced boat gives the consumer a number of reasons to own a new **MELGES MC**. **MELGES** has the most advanced MC racers in house. This allows you to find out how to advance your MC racing campaign.

We are dedicating ourselves to giving you the highest quality MC with the very best service available for many years to come. Order a new **MELGES MC**, have a **MELGES** expert tune your boat and mast for winning speed and have him share "Zenda Knowledge" on how to sail your MC to the top of the MC class.

**MELGES PERFORMANCE SAILBOATS** is your main supplier for all MC parts and racing accessories. We provide galvanized steel trailers, aluminum holddowns for your mast and boom, cockpit and full deck covers, trailering covers for regatta sailors and the fastest sail combinations on the racing scene. The North Sails Zenda loft will provide the same quality and service for your new boat.
