ELEN MARINE LTD

20630 SUPERIOR STREET
CHATSWORTH, CA 91311
(213) 882-5185

Total Stability

Picture a 13'4" daysailer with a six-foot beam and nearly five feet wide at the transom. Imagine how much wind and weight it would take to knock her down! You've got *complete* stability under 100 sq. ft. of sail...with a cockpit roomy enough for six adults.

Manta is a Ron Holder design, with lots of speed in her. You won't have to hike out, though...just sit back for a smooth, *dry* sail.

Yacht Quality

Tough fiberglass hull with foam flotation throughout...stainless standing rigging...anodized aluminum mast & boom...fixtures set in silicon rubber and through-bolted.

Custom Features

Jib cam cleats...swivel main cam cleat...Dacron sails and yacht braid sheets...non-skid deck....watertite storage compartment....deep kickup rudder...all stainless hardware.

Trailerable

Manta's custom, high quality, low-priced trailer fits any car (including compacts). With her hinged mast step, you can rig Manta in moments and sail her with ease *wherever* wind and water are.

Standard Equipment

- Anodized Mast & Boom • Dacron Sails (Main & Jib) • Dacron Braided Sheets • Hinged Mast Step
- Cam Cleats (Main & Jib) • Kick-up-rudder • Storage Compartment • Stainless Standing Rigging
- Standard Hull, White Only • Deck Colors: Choice of Blue, Yellow, Gold, Lime.
