

Mariner 50 Motorsailer

Mariner Marine Industries

1340 WEST SEVENTH STREET, LONG BEACH, CALIFORNIA 90813 (213) 435-9175

MARINER 50 MOTORSAILER...the most prestigious of the Mariners. Designed by the noted Blaine Seeley to be the top of our world famous Mariner line.

Blaine Seeley is well known for creating surprises that work, for blending beauty into function with a strength and purpose seldom seen in naval architecture.

An exemplary design, the Mariner 50 can be described as enormous, powerful, magnificent, brilliant. A true 50/50 motorsailer to be cruised by a couple under power or sail with speed and range, offshore or in shoal water, in privacy or with a crew...and at all times in utmost comfort, luxury and security.

From the captain's chair in the fully instrumented wheelhouse, all around visibility is provided through the large, super-strong tinted windows. A second set of controls are located in the equally spacious open cockpit for exciting sailing or carefree lounging in the sun or under the stars.

The Mariner 50 can power at 10 knots. She has a cruising range in excess of 1,200 miles. Or she can clip along at hull speed under sail, with her engine shut down, the sounds of wind, waves and sails filling the senses. Her long shoal keel and modern underbody will allow her to reach and run with sailing auxiliaries. When it is time to slop into the weather, what a joy to go to the pilothouse, turn the key and power home.

For two decades Mariners have been designed to be handled by a couple seeking the privacy of their own world...at sea and in sheltered coves. A study of the interior plan reveals how beautifully this traditional Mariner theme has been carried out. More than half of the below deck accommodations are devoted to the comfort and enjoyment of the couple or family who go to sea to achieve the seclusion seldom found ashore. The Master's Cabin is more of a Master Suite, with dressers, vanity, hanging lockers, queen size bed, large head with tub and shower.

When necessary, the Mariner 50 can comfortably sleep nine below decks. The spacious forward cabin has twin berths, two seats, hanging locker, two dressers and a separate head with shower.

The galley, with refrigerator and separate freezer, stove with oven, hot and cold pressure water is designed for gourmet cooking. Lounging, dining or the entertaining of guests are luxuriously accommodated by the dinette in the main salon, another dinette in the pilothouse and the breakfast nook/bar off the galley. The 10 KW generator supplies power for the washer and dryer, the oversized refrigerator freezer and as many electrical appliances as desired.

The Mariner 50, therefore is versatile in every possible way: sail or power, secluded cruising or gracious entertaining, underway in foul weather or fair. The Mariner 50 Motorsailer is also very complete...with furling jib, stereo system throughout, shore power, three boarding gates, transom platform, oversize winches, generous use of teak inside, carefully placed teak trim outside for easy maintenance.

Like all Mariners, the Mariner 50 is designed and built to take you anywhere in the world. Heavy fiberglass hand-lain construction, strong and permanent hull deck joint, heavy section aluminum spars and oversized rigging.

Mariners were born in the era of wooden boats and are the most successful yachts to make the transition from wood to glass. The original Mariners, now in their third decade, are still bringing joy to proud owners. After all that time and all that experience, when we decided to design and build our most prestigious Mariner...it had to be right...we are sure you will agree.

MARINER 50.....a new standard in a long tradition of setting standards.

SPECIFICATIONS

L.O.A.....	50'0"	BALLAST.....	7,000 lbs.
L.W.L.....	44'2"	SAIL AREA.....	831 square feet
BEAM.....	15'0"	FUEL.....	600 gallons
DRAFT.....	4'6"	BERTHS.....	Six
DISPLACEMENT.....	36,000 lbs.	POWER.....	185 HP Diesel
		OPTIONAL....	85 HP Twin Diesel
