

Matrix 27

27'

Matrix Marine, a semi-custom builder known for producing a few superior quality yachts per year, now builds the Matrix 27.

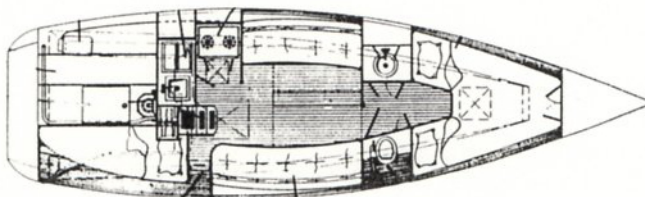

The hull and deck are bonded using the unique Matrix method that virtually eliminates the joint. All factors combine to make an uncommonly stiff, strong structure.

The deck incorporates wide, unobstructed side decks with heavy-duty aluminum hatches and toerail. The cockpit features a large seating area and ample gear and sail stowage.

The galley features a gimbaled two-burner range with oven, a 4.5-cubic-foot fully insulated icebox, and a deep stainless steel sink.

The head features a marine toilet and holding tank system, a stainless steel sink, and optional shower.

The standard rig is mast-head sloop. All sail controls, including reefing, lead to the

cockpit for safety and ease of handling. The mast is stepped on deck in a tabernacle for trailering.

The Matrix is offered in various stages of completion. Prices range from \$9,400 for bare hull and deck, to \$33,900, less sails and engine, for the standard boat.
