The Melges 24 epitomizes the ultimate in affordable one-design sailing by combining high-performance and cruising ease. A comfortable large cockpit and a modest but functional cabin layout offer state-of-the-art space and comfort. The Melges 24 comes equipped with a custom galvanized steel trailer set up with hoist or ramp launching capabilities. The large powerful sail plan provides impressive hull speed in light winds with very simplified control in the breeze. The 100 percent genoa is set up on a Harken Roller Furling unit which leads ait for easy furling from the cockpit. The boat is equipped with an asymmetrical spinnaker which makes gybing a cinch to accomplish from the cockpit. It requires no fore-deck hands! The tack remains attached to the retractable bowsprit which enables the crew to simply ease one sheet and trim the other for effortless spinnaker work. Epoxy, S-glass, and vacuum bagged construction bring the finest in durability and strength to the Reichel/Pugh designed Melges 24. For information please call or fax us.
