

the MONTGOMERY 12

A Classic One-Design

The MONTGOMERY 12 has been designed and built as a two-man racing and daysailing boat, light enough to be easily car-topped, but with the performance of boats in the 14' to 15' range. Her speed and sensitivity will encourage the eager-to-learn beginner as well as reward the experienced racing skipper.

The MONTGOMERY 12 quality is the same as that which won a perfect scoring in the quality judging of ONE-DESIGN & OFFSHORE YACHTSMAN's 1970 America's Teacup regatta. Her hull is of hand lay-up fiberglass, trimmed in teak. Aluminum spars, combined with teak and fiberglass, cut maintenance to a minimum. Her carefully designed interior makes for comfort, efficient sail handling, and easy righting ability in the event of a capsize. Standard hardware includes adjustable jib fairleads, swivel cam cleat, sliding outhaul, and Harker Blocks.

LOA	12'2½"	Options:
