

Moody 346

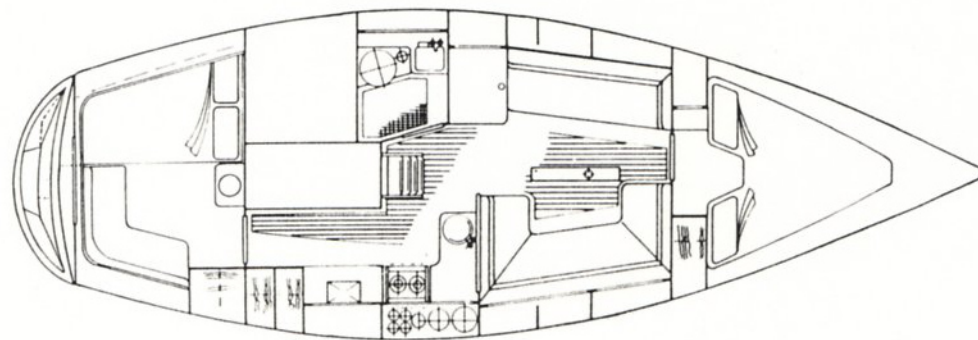

35'

The Moody 346 is a development of the successful Moody 34. All the features of the well laid-out interior accommodation have been retained. Added to this are a comprehensive set of detailed improvements and styling changes that will set the boat apart from the competition and make it an attractive investment.

The main feature of the Moody 346 is the molded-in bathing platform, which incorporates twin opening transom ports into the aft cabin. These ports, together with the cabin trunk windows and full-size deck hatch, give the huge aft cabin a degree of light and ventilation that has not previously been available to boats of this size.

The spacious accommodation layout forward includes a large galley with twin sinks, icebox, stove, and excellent towage, a chart-table area that will attract the most serious of cruising yachtsmen, large toilet compartment with shower, wide comfortable saloon with excellent dining area and stowage, and a fore-castle with hanging space and generous clothes stowage.

The sailing performance of the Moody 346 is renowned by the extended sailing water-line length. Every Moody yacht carries a Lloyd's Hull Construction Certificate,

which provides the highest standard of structural integrity and strength. All fittings and parts are by world-renowned manufacturers.

We invite you to inspect the Moody 346 or any of the other high-quality yachts in the Moody range: Moody 31, Moody 376, and Moody 422.

You may be surprised as to how competitively priced a yacht of such a high standard, built by Britain's largest boat-builder, can be.
