

# Nonsuch 30

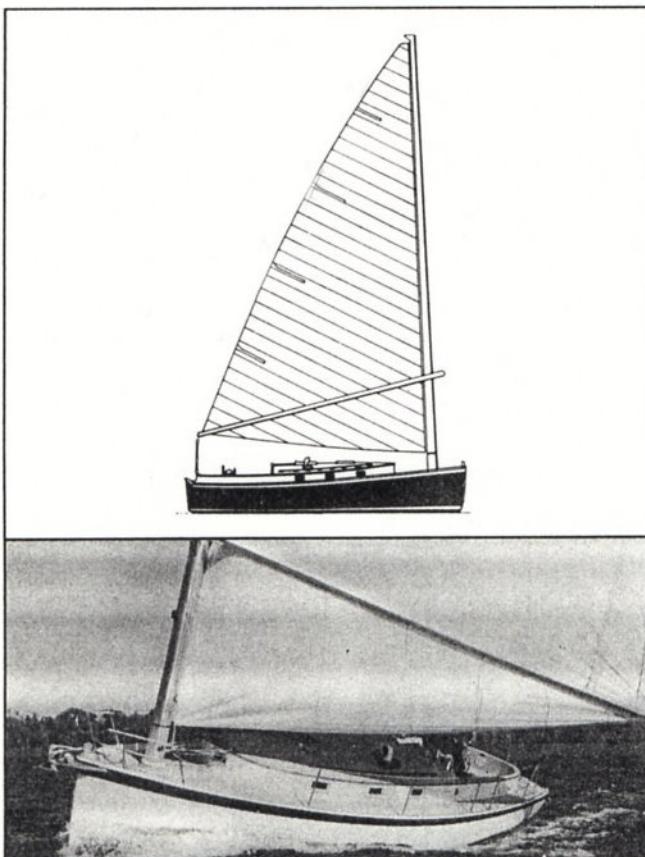

30'

The Nonsuch 30, first introduced in 1978, has proven to be simply astonishing. Singlehanded sailing has become commonplace, and couples have begun winning ocean races with this boat. Families have arrived at regattas without inviting legions of gymnasts, and elderly couples have left the trawler at home. The Nonsuch 30 concept works, and the very word Nonsuch has become synonymous with common sense.

The Nonsuch 30 was the first Nonsuch built. Conceived in Canada by Gordon Fisher and designed by Mark Ellis, the Nonsuch 30 became an overnight success because of its sailing qualities, simplicity, and size.

Excitement exceeded initial expectations, and the flow of orders has been uninterrupted for nearly a decade.

The modern Ultra layout has enjoyed instant appreciation. The Ultra features a

unique forward owner's cabin with a large double bunk, hanging locker, dresser, and a chest of drawers. This stateroom is connected to a large head with a stall shower. The galley is convenient and features abundant storage. The main cabin is light, open, and large.

This desirable layout will become a standard in boating. The Ultra will some day be a classic.
