

# OCEANIS

510  
CLIPPER

BENETEAU 

The new generation Oceanis 510 Clipper profits from the experience gained from the 200 Oceanis 500 yachts sailing today. She is the culmination of the perfection of the Oceanis concept of

simplifying life as much as possible on board a great yacht capable of sailing you fast and effortlessly to the far corners of the earth.

Your Oceanis 510 is also enhanced by the very latest technological advances developed by the Beneteau Research Department. The BWS process, patented by Beneteau places a real shield between the gelcoat and the laminate. The engineering of the hull is thus greatly improved and its life extended. Beneteau has for years used the inner moulding technique. This provides the real framework of the hull, perfectly structured to deal with areas of stress and provide maximum stiffness. The Oceanis is built to go far, both in time and distance.

The Oceanis 510 has been designed

## THE WORLD'S OCEANS BELONG TO YOU.

like a true Clipper. For power, for speed, for stiffness under sail, for astonishing ease of manoeuvring and incomparable aptitude for long cruises. The generous proportions of the Oceanis 510 mean that you can really welcome on board as many friends as you like. A spacious yacht where great attention has been paid to all those details that make your cruise to the islands or round the world voyage a pleasure at all times.

Since the Oceanis 510 can deny you nothing, indulge yourself. Share a few

grilled lobsters around the teak table in the cockpit - as big as any terrace - or watch the midnight sun in the still waters of a Scandinavian Fjord. Lazy mornings in the luxurious comfort of your cabin. Pamper yourself in your en-suite bathroom... The Oceanis 510 Clipper is a boat that knows how to give you the life you want. Richly. And generously. Far away from the humdrum of daily life, in a world where time stands still, where each gesture is the expression of true pleasure and each moment is shared happiness.

## A WORLD OF ITS OWN.

Oceanis 510 Clipper. A home where every detail essential to real quality of life has been included.

At anchor, the transom door and retractable bathing ladder will guide you naturally to the sea.

At lunchtime, comfortably seated on cushions around the central table with its hinged flaps and integral icebox, your guests will really appreciate the generous

dimensions of the cockpit. Sipping cocktails with your friends at sunset, the spotlight at the end of the boom will add a special glow to your evenings.

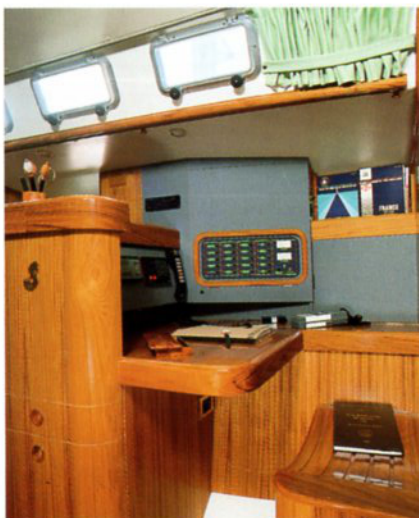

The Oceanis 510 Clipper is the ideal boat for a tranquil holiday or a long voyage.

From the cliffs of Madeira, to the leisurely Channel Islands, the Caribbean or Singapore and its sampans... Set sail on an Oceanis 510 Clipper and live each day to the full... Full of excitement, full of peace, full of sheer pleasure. And freedom.

## THE WORLD IN COMFORT.

Living on board an Oceanis is to live in an environment designed to meet your every wish. Luxuriously intimate, carefully studied interior decor, great comfort. Everything on board the Oceanis 510 is an invitation to cruise. The full width of her 4.75 m beam is used to create volumes for privacy.

Welcome to the saloon. An astonishingly spacious room, lit from all sides by lateral portholes and a large panel with sliding cover. A living room where the atmosphere is always welcoming whatever the wood you have selected. Precious woods, worked to perfection by the hands

of master cabinet makers. A warm ambiance enhanced by halogen lamps. A musical ambiance created by the stereo sound system. And a pleasant ambient temperature because of the well insulated deckhead.

And then, for the gourmet, a superb galley. A real kitchen. With a fridge-freezer, microwave oven, stove, crockery draining locker, large work tops and spacious lockers to store all that you'll need for that ocean crossing.

Finally, for the navigator, a nav. station and chart table designed to enable you to chart your course and at a glance be able to check all navigation instruments and electrical equipment.

## PRIVACY. THE PRIVILEGE OF GREATER SPACE.

By day or night the Oceanis 510 Clipper appears larger than life. The dimensions of the owner's cabin are more than generous. All cabins have their own en-suite bathroom. Everyone can live on board an Oceanis the way they want to. All that is necessary is to choose one of the three layouts.

In the version with the owner's cabin forward, two double cabins aft are available to your guests. For larger numbers opt for the version with 4 double cabins. And if you wanted to take a crewman along, he hasn't been forgotten : there is an independent cabin with direct access

from the foredeck. The Oceanis 510 Clipper respects the privacy and peace of all. It would be difficult to imagine a more carefully thought out decor, more comfortable furnishings and a better distribution of volume and space. A real invitation to go cruising.

With a virtually limitless autonomy, the Oceanis will easily cover 200 miles a

day under engine power and 1000 litres of fresh water are stored in immense rigid tanks fitted into the inner moulding. Electricity is largely on tap with a 40 amp battery, 12V/220V transformer and 220 volt sockets.

The Oceanis 510 Clipper has been entirely designed to ensure that the enjoyment of your cruise lasts even longer.

## NEW IDEAS TO TAKE YOU FURTHER.

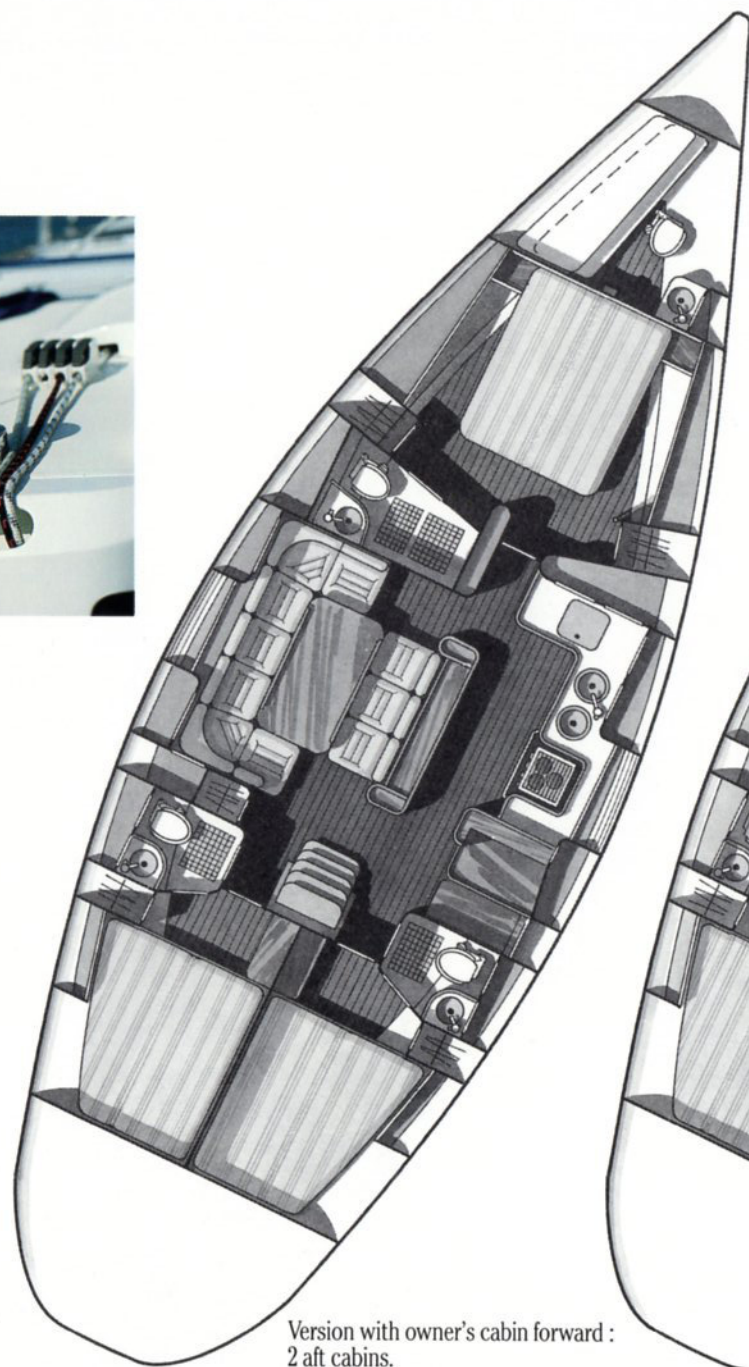

The Oceanis 510 Clipper has more than one trick furling in her sails. Genoa and mainsail roller furling, blocks for furling lines integrated in the toerail. Mainsheet track located on the coachroof to completely free the cockpit. And all halyards disappear beneath a false deck to reappear in the cockpit where they coil snugly in their boxes.

Experience the pleasure of taking the helm of a real yacht. The sail area is generous for good performance in light airs and the Oceanis 510 Clipper can be helmed with fingertip control. Two leather sheathed wheels, Lewmar winches, winglet keel...

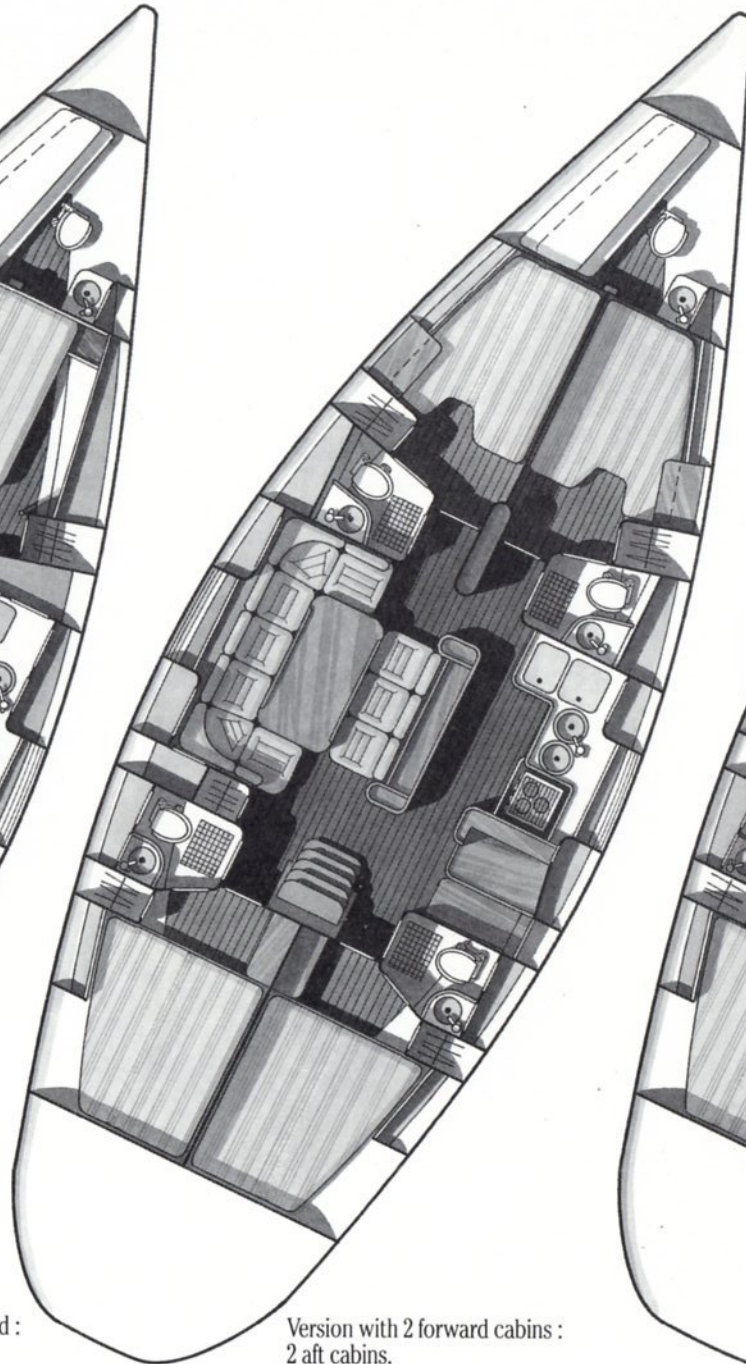

Simple to manoeuvre, freedom rediscovered. That little creek is just there, within reach. The electric windlass sunk into the anchor well and the tilting stemhead

fitting, do all the work for you. Flippers and diving bottles are in the aft locker, the bathing platform steps take you into the sea : both air and water temperatures are 25 degrees. Meanwhile, your Oceanis awaits your return, ready to take you on to new horizons.

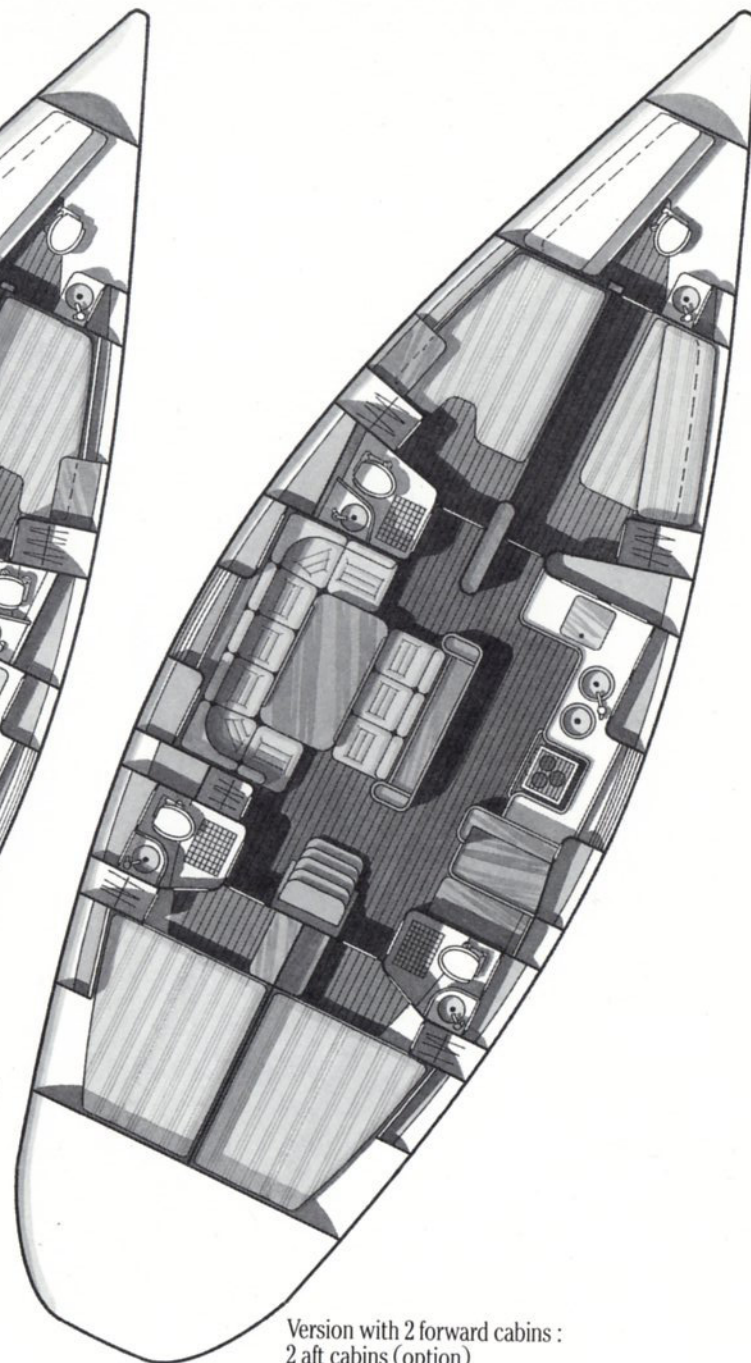

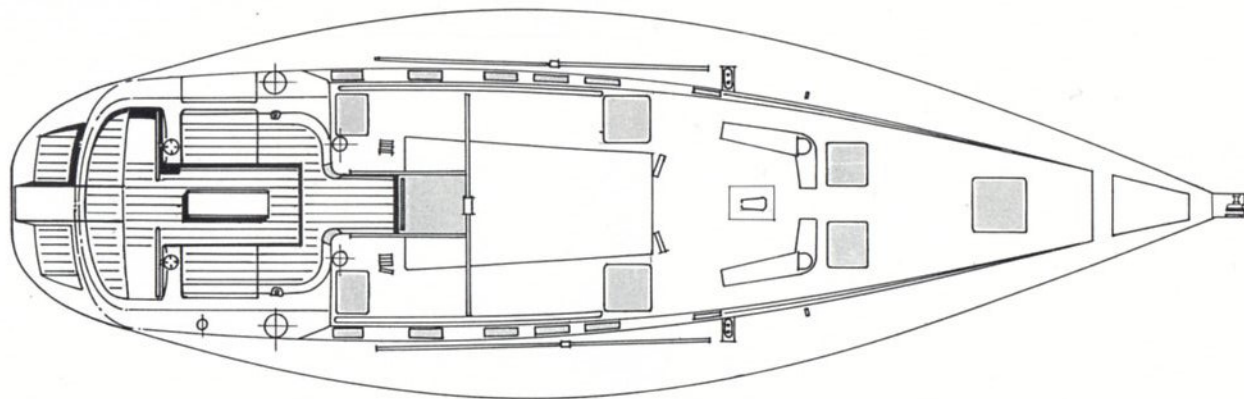

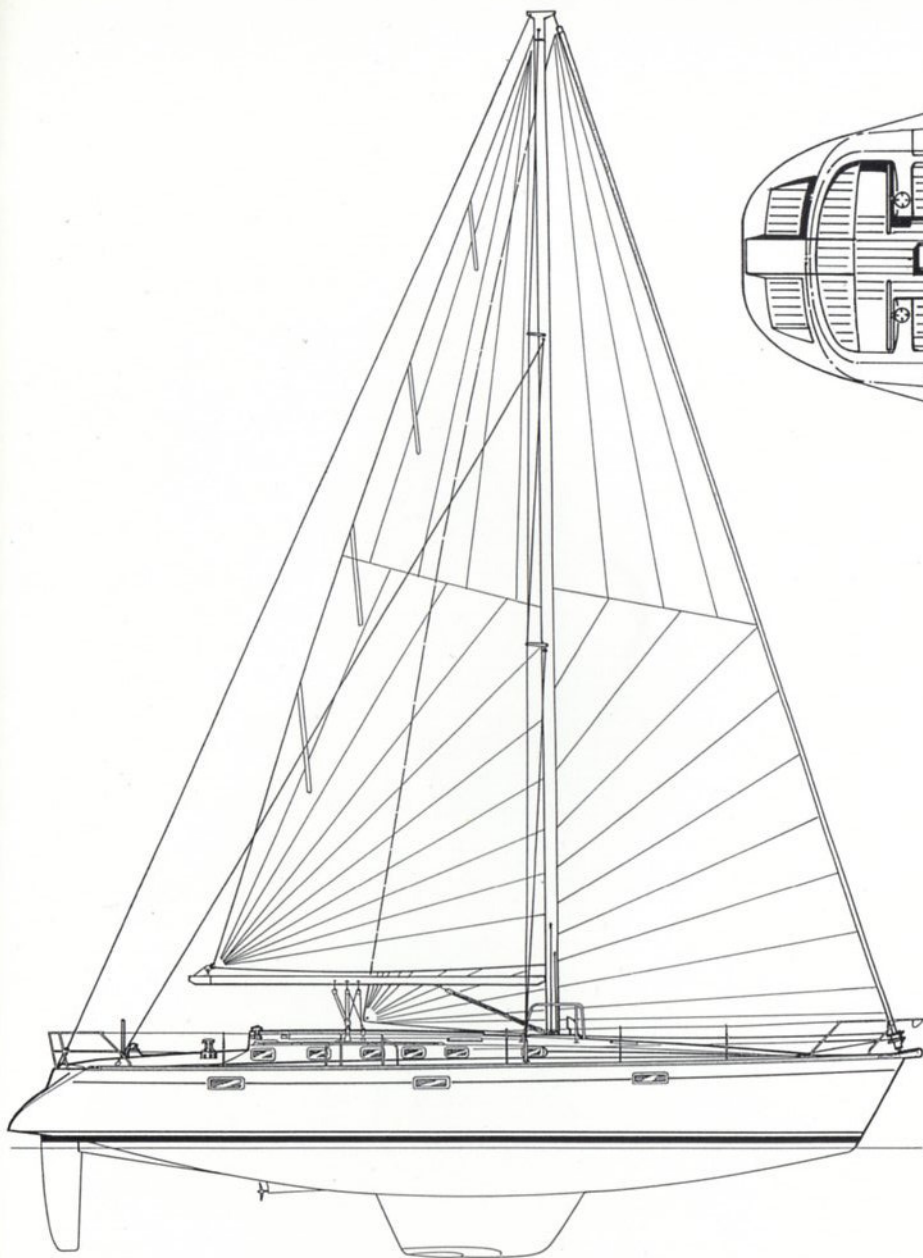

Version with owner's cabin forward :  
2 aft cabins.

Version with 2 forward cabins :  
2 aft cabins.

Version with 2 forward cabins :
