

Manufacturer's comment:

The PY23 is a second generation trailerable family cruiser—easy to launch, easy to tow, delightful to sail.

We say it's a family boat because it sleeps four. Yet, it looks like a little yacht should: No lumps or contortions, just a big cockpit and wide open deck spaces. Inside it is huge, because the centerboard stores completely inside the mini-keel, leaving the interior open and comfortable. If you haven't seen a PY23, you're missing the boat. See it at your local boat show.
