HAWK

... sleek, saucy day-sailer!

Add water and wind, and Hawk becomes as frisky as a young water and wind, and Hawk becomes as frisky as a young colt. Snug in the sheet to capture the breeze and she skims across your favorite bay like a bird in flight. Hawk was designed to add new dimensions to your family's day-sailing pleasure. She's lovely to look at, a joy to sail, and requires only a minimum of care. The happy blending of her straight sheer and reverse transom reflects the design latitude and beauty of fiberglass.

This sleek little Alberg-designed centerboard sailer is packed with versatility . . . she's large enough for the family, fast enough for stiff competition. The non-skid deck (blue or green) with roomy cuddy cabin is integrally molded to the strong white hull. You'll appreciate the large, comfortable cockpit; the feeling of added safety through positive flotation; the "kick-up" rudder to facilitate beaching; and big-boat features like aluminum spars and roller reefing. Many optionals . . . for even greater pleasure and convenience.

Hawk w/ trailer
16' 1878

Edward Pearson
1811 Firwood Drive
Portage Michigan

Molded-in, non-skid deck pattern (blue or green)
