Catch me if you can! The spirit of flat out racing has just arrived in an affordable Tornado-sized catamaran.

Blast to weather with the sheer power of a high pointing, fast tacking machine. Reach at breakneck speeds as the Prindle 19's massive sailpower drives the lightweight hulls like lightning! Enjoy the challenge and thrill of catamaran racing that few ever experience.

Designed with gasketless kick-up centerboards for easy beach launching and protection from underwater obstacles. Hand-built in limited quantity to precise one-design standards. Customized with optional performance features including Smyth sails and additional sail trim features. There are Prindle 19 Nationals every year and the boat trailers flat to get there. Most of all it's high performance at an affordable price. C'mon. Join the fun!

Prindle 19 construction is high-tech for a high strength to weight ratio. Foam sandwich cored unidirectional "S" glass construction is used with four bulkheads per hull to make the hulls stiffer and withstand the rigors of hard sailing. Tremendous loads are exerted on the hull and rig with over 325 pounds out on the wires. The hulls are joined with cross beams that attach in recesses in the decks for extra strength through better load dispersal. The rig is full race with rotating spar, Harken blocks and fittings. All masts, booms and cross beams are made exclusively for Prindle. Sails are available in either recreational or full race quality.

Prindles are built by Lear Siegler Marine, which, in addition to Prindle, has built more than 60,000 Cal and O'Day sail-

boats in the past 27 years. The Prindle 19 is covered by a Limited Warranty that you should read. Ask your dealer for a copy.

Enjoy the rewards of competitive, high performance sailing. Feel the exhilaration of acceleration as you pick up speed to windward, round the mark and roar off on a spray-soaking reach. Your first step is your Prindle dealer. Go for a test flight on a Prindle 19...it's sheer enjoyment, excitement and challenge.

#### **Prindle 19's Finish 1-2 In "Worrell 1000"**

Prindle 19's crossed the finish line first and second in the 1985 Worrell 1000 Race from Ft. Lauderdale, FL to Virginia Beach, VA. The competition included catamarans from all other major manufacturers sailed by international champions. The third place finisher was more than six hours behind the winner after 1,000 miles and 13 grueling days.

Mike Worrell, race founder and organizer said prior to the start: "the boat that wins this year will be the strongest, lightest, fastest off-the-beach sailboat on the market." He's correct.
