

# PUFFER

## Manufacturer's comment:

A tight little traditional sloop. At 12'6" she's a fine, small daysailer. Ideal, too, as a trainer for yacht clubs or camps as she offers both a genoa jib as standard equipment and a spinnaker as an option. All fiberglass construction assures low maintenance, long life. Comfortable cockpit provides excellent seating. All fittings are marine quality carefully selected for superior performance. Also included are hiking straps, oar locks, motor mount, self-bailing cockpit and kick-up rudder. One of the finest quality, finest performing boats in its class.

L.O.A. .... 12'6"  
 Beam ..... 4'10"  
 Draft ..... 3" to 2'10"  
 Sail Area: Main ..... 55 sq. ft.
