Mast Height	20 ft. 8 in.

Choose Rascal for her spunk, as she takes on the easiest breeze or saucily tosses a fresh wind in your face. Rascal is swift and superbly manageable, even in a hard and heavy surf. The only sounds you share are the play of water on her 14' hull and the whistle of wind in her sails.

You're so free! Free of care and secure in the safety design of Rascal's 6' beam. She's a snap to rig, and so light, she'll trailer easily behind even a sub-compact car.

You enjoy these standard features, which make Rascal an attraction for the whole family:

- Roomy cockpit, seating 4 adults comfortably
- Plenty of storage forward and aft
- High freeboard at bow entry for smooth cutting through heavy seas
- Low maintenance fiberglass hull
- Enclosed centerboard trunk
- Self-rescuing and easily righted

For safety, stability, comfort and performance, catch a Rascal. And feel what it's like to travel the wind. Ask us about a "test sail."
