

Rhodes 19

19'

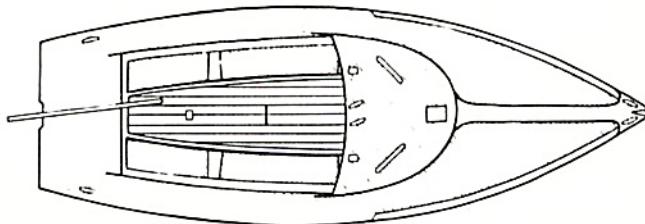

Stuart Marine's rugged Rhodes 19 is an engineering triumph, combining proven design concepts with the most respected current technology. Improvements in construction and comfort make her an ideal boat for family sailing or spirited competition.

This classically styled, all-around performer, available in both keel and centerboard models, was a winner in Yachting magazine's heavy-weather One-of-a-Kind Regatta in San Francisco Bay. She was also cited in SAIL magazine's tenth anniversary issue as a trendsetter and was selected for Mallory Cup competition.

From stem to stern, the Rhodes 19 is crafted to highest standards of quality at our new factory in Rockland, Maine. A newly designed flotation system insures the utmost in safety. The Rhodes 19 hull is a proven winner

in heavy seas. The generous new 7' cockpit allows ample working room, even with six aboard, and is fitted for comfort, with rolled seats and built-in storage lockers and shelves. A new mainsheet system adds to her quick and sure handling. The optional spinnaker provides even more versatility, excellent for off-wind sailing.
