

SANTA CRUZ

BREAK LOOSE

50

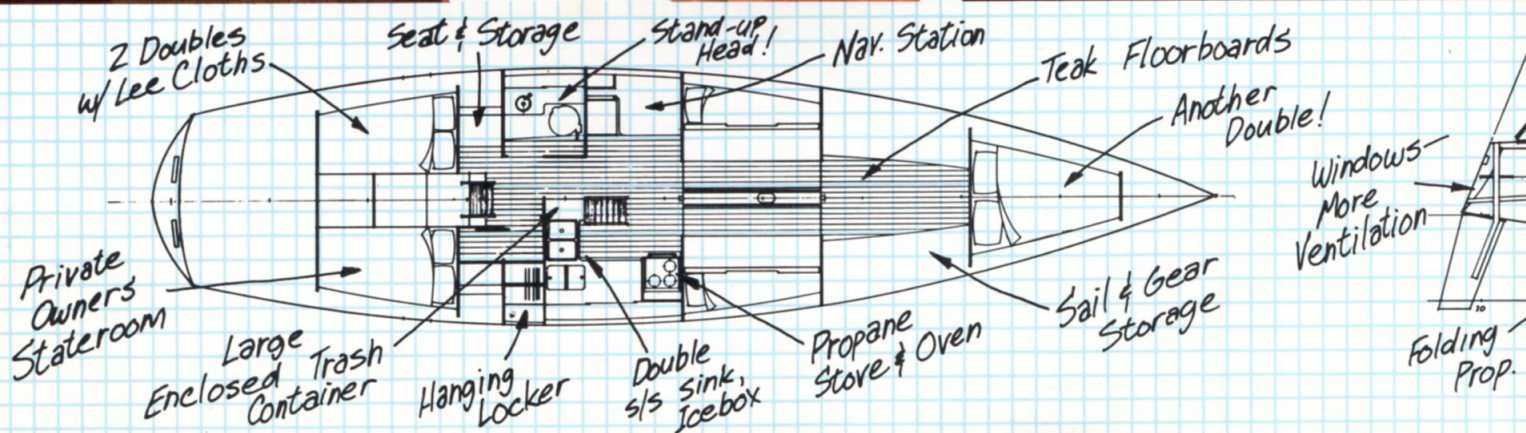

The **Santa Cruz 50** is the most refined and certainly the fastest 50 footer available in the world today. Except for Merlin and a very few Maxi's, there's no faster way to get to Hawaii, Mexico or wherever than on a Santa Cruz 50.

The 50's incredible boat for boat finishes in the '81 Transpac and the sight of eight of them hitting the line in San Francisco's Big Boat Series fit anybody's definition of Class Racing . . . in a Class by themselves.

The Fast-Is-Fun philosophy of the famous Santa Cruz 27 and the now legendary Merlin has reached a pinnacle of perfection in the 50 . . . Big Boat Performance at a far lower cost to buy, equip, race, cruise, and maintain.

The sensibly designed bright and dry interior is appointed intelligently for the racer and cruiser alike. The comfort and common sense features found on the Santa Cruz 50 and in the interior appeal to every sailor

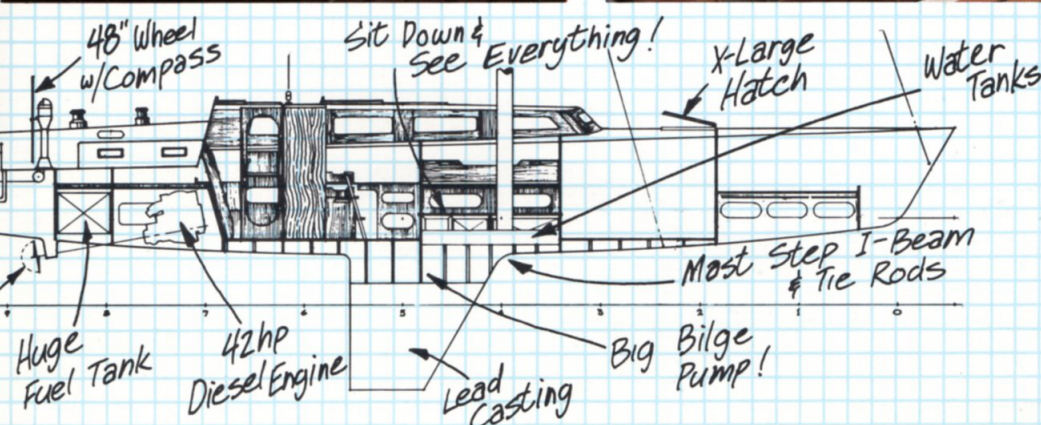

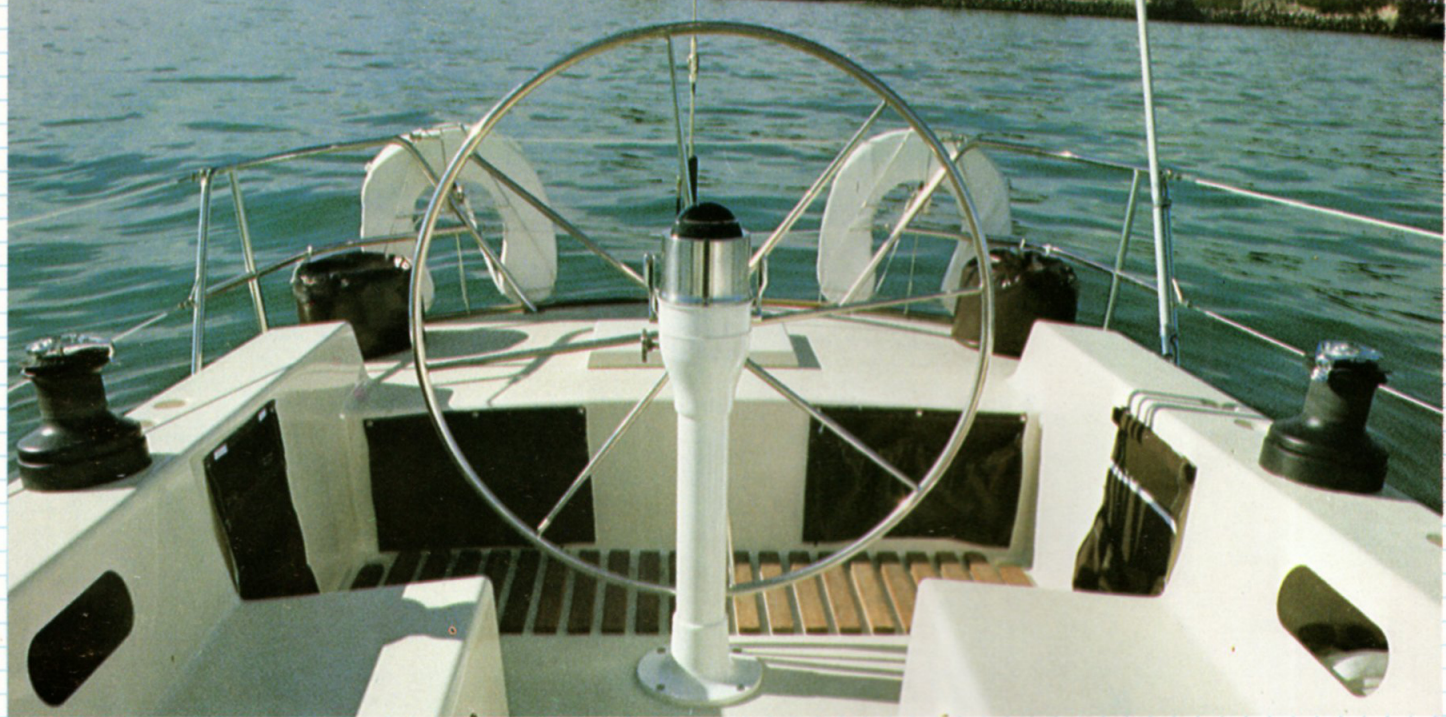

. . . super liveable accommodations and simple elegance in the Fast-Is-Fun boat of the 80's.

Featured is an enclosed owner's cabin aft with a large hanging locker and the warm wood interior seen throughout the boat. Four more double bunks are located aft, in the bow and in the raised settee main cabin. All are convertible to singles for high side weight distribution. The large practical galley has propane stove and oven, optional refrigeration, double sinks and lots of storage and counter space. The navigator's station and the enclosed head are both located for efficiency, comfort and maximum convenience.

All systems on the Santa Cruz 50 are designed with simplicity and utility in mind to minimize weight and mechanical complications . . . A boat that sails easily, motors economically, handles like a dream and gets you there fast . . . without sacrificing luxury.

Let's Do It
Billie
