SNARK

Sea Snark

For over 20 years, more people have started sailing with a Sea Snark than any other sailboat in the world. That's because the Sea Snark is the lowest cost, easiest to sail boat you can buy. She's made of unsinkable expanded polystyrene, comes complete with all sails and rigging, and weighs only 30 pounds for easy car topping.

Super Snark

The 11-foot Super Snark gives you all the features of a Sea Snark plus the durability of our exclusive Armorclad™ hull. Her tough, Armorclad™ hull is still light enough to car top easily, so you can take your Super Snark where ever you want to sail. And you'll be sailing the same day with the Snark Sailing Manual that tells you all you need to start.
